Chairman's Message

Dear Reader,

It is with great joy that we applaud the commendable work put in by the entire editorial team and all those who have contributed in bringing out this edition of "Hello Student" which beautifully showcases yet another incredible year with array of events and happenings at the Ryan International Group of Schools. We take this opportunity to congratulate our young Ryanites for being recognised by the Guinness World Records for the charity donation recently. We are proud of you! This issue has wonderfully illustrated the recent achievements in both academic and extracurricular spheres, highlighting the tremendous progress and great strides taken by our students which is extremely gratifying.

We are living in the 21st century and it is true that the goal of the educational process has evolved over the years. At the Ryan Group, understanding these changes in the system, we have endeavoured to instil creativity, collaboration, critical thinking, communication and social responsibility, broadly known as the 21st Century skills, amongst our students through our dynamic approach to education. We appreciate our school teams for their consistent efforts in producing the best results every year and nurturing holistic citizens. While we thank God for His

vision to educate the youth of our country, we are grateful to all our stakeholders – parents, teachers, staff, students and our well-wishers for their commitment and support in providing quality education and developing global leaders.

We urge you dear students to make the best of your school years and emerge victorious as queens and kings in your own field of interest. Brian Tracy has beautifully said, "Make your life a masterpiece; imagine no limitations on what you can be, have or do." Work hard with commitment and dedication with a clear focus on achieving your goal. We pray that God, in His divine benevolence may continue to lead and guide and help you be successful and happy in life.

God bless you and your families!

Dr. A. F. Pinto

4 Mice in One House

An early Friday morning we woke up and went to the hall, while walking I realized something wasn't quite right. The things in our kitchen were all messed up, things had moved from where they were and we saw mouse faces. I was sure that there was at least one mouse in the house. But my question was from where and when did it come?

We called the house keeper but it took him half an hour to reach. While we were waiting for them to come I saw a bowl of bananas, I thought that the mouse might have eaten or at least bitten one of two bananas so I checked and I realized that my guess was right. The house keeping person checked everywhere but did not find any mice, so we all left for our daily routine.

We came back late night and mummy went to the kitchen and as soon as she switched on the light she saw a mouse running out of the exhaust, she yelled hearing her every one of us ran towards kitchen to help her. When mummy was explaining what happened in mean time one more mice ran out from the exhaust opening. Just to ensure that there were no more mice dad made a sound of a cat, the mouse hopped out of its hiding spot. We checked with the help of the flash light at the same spot if there are any more hiding but did not find anything. Suddenly we heard screech from my brother as he was also checking and he found a mouse. My brother purred like a kitten as the mouse ran for his life. Next day we got a metal net put behind the exhaust and covered the gaps with silicon.

My Suggestion - Always keep your windows closed.
I recommend you to always be watchful of your surroundings

TOMORROW IS MONDAY

There was a man who went mad as he jumped into a biscuit bag. Now the biscuit bag was so big and heavy that he jumped into a pig's belly. Now that he jumped onto a roaring bull. Now the bulls belly was so huge and fat that he hopped into the police man hat', now the police man's hat was so smelly, that he sat in the sounds of melody. Now he didn't remember it was Sunday, so he looked into the calendar and said "Tomorrow is Monday".

The Two Bosom Buddies & The Bear

In times long past there were 2 bosom buddies one was John and one was James.

One day when John and James were travelling in the woods, they heard growling of the bear.

They got a cold feet out of fear as they saw bear nearing them. Seeing the bear John immediately climbed the tree next to him. Poor James didn't know how the climb a tree so he got an idea. He laid down on the ground pretending to be dead.

When the bear came, he sniffed James and thought the he is dead and left from there. John came down and asked James, "hey what did the bear told you in your ears?"

James replied "he said never go with a friend who lives you in the danger. John was ashamed by his conduct.

Moral: Be aware of selfish friends.

MY JOURNEY AT

RGGS

Reyansh Goyel
Grade III

Dear Friends,

Just felt like sharing my journey at Ryan Global School so far. I was a little over three years when I joined the school. Like any other child, I would cry and would be reluctant to go to school. However, now when I look back, I have very fond memories of the last four years, that I have spent in this school. My teachers have been so warm & caring. I have had a very good learning experience under their guidance. I have made so many friends in my school - it is fun to study, play & learn together. I like the way we learn in our school – it goes beyond the books, we learn through videos, activities, field trips, projects & exhibitions. I feel this way we become more inquisitive & an independent learner. I get to participate in so many events & activities, which help me become more confident. I have won so many medals & certificates, which is so motivating. I like SLCs (Student Led Conference), where I get to explain to my parents all that we do in school – even my parents are happy to come for SLCs. Last year our school sponsored a 'Global Village Event' as a part of ICFPA, where we got to meet students from so many different countries. It was a great evening filled with dance, performances, music & celebrations with everyone present there in a joyous mood. I love my school & I really thank all my teachers & my parents for giving me this wonderful childhood gift!

Thank you God!

A character from a T.V. program

When I thought about a character from a TV program, the first person that came to my mind was Shinchan. Yes, Shinchan is my favorite TV character. He is 5 years old. He stays with his family and even has a dog named Sheero.

Let me tell you a little about him. Shinchan is good and helpful sometimes, but mostly very troublesome and naughty. His father, Hiroshi goes to work. His mother, Mitsy is a housewife and takes care of him and his sister. Shinchan's baby sister, Himawari is tiny and crawls around the house messing up things. Shinchan tries to take care of his family.

Once Shinchan's mother was unwell and told him to wash the dishes. He did his best washing the dishes. His mother was very happy and praised Shinchan a lot. He got excited and took all the plates and guarded them and said, 'The plates will get dirty if we use them' and didn't let anyone use them. That's how he was helpful and troublesome at the same time.

The best thing about him that I like is that he makes everyone laugh. He has 5 best friends who are very different, but he understands and adjusts to all of them. Shinchan has very strong friendships with them. No matter how naughty Shinchan is, he has a beautiful heart. That's what makes him special.

WONDERFUL CHRISTMAS GIFT

It was wonderful Christmas morning I woke up early in the morning I took bath and I got ready for the party. What a lovely day! I could smell Christmas in the air. Soon my dad took me there I played with the jugglers, I saw the magic show, my friend cut the Christmas cake and I ate the yummy cake.

Soon as I was about to take his leave he gifted me a big box and soon I took leave from the party. On my way home I saw some sad children sitting beside the road. I asked my dad "why are they sad? ". My dad replied "because they don't have any gift".

I stepped out my car and offered my gift to them. They had a big smile on their face, that happiness touched my heart. Soon I told my dad these happy faces are my best Christmas gift ever.

MY PYP JOURNEY

It was indeed a memorable journey the 2015-2016 PYP Exhibition. It was a journey of learning, knowledge, the Einstein moments, the disappointments, when we could not put our ideas on paper, then the happy moments when our mentors helped us shape our vision. The biggest support we had was from our entire school community. The Primary Years Programme is a programme which is from Early Years (Nursery) to Grade 5. The PYP Exhibition held towards the end of Grade 5 is the Grand Finale and the showcase to show all that we have learnt through the years.

The students showcase the learner profiles, and skills. The exhibition is on one of the following themes:

Who we are?

Where are we in place and time?

Sharing the planet?

How we express ourselves?

How the world works?

How we organize ourselves?

The journey to this memorable destination began in October 2015; when we were asked to pull up our socks and get set go for the exhibition. We were super excited. We had seen how the seniors had put up their exhibitions in the previous years and we sure wanted to put up a grand show. We were divided into groups and were delegated different tasks. We also had other teachers as mentors, who would help us through this journey. We were 3 groups of 5 students each. We set a sail our voyage to the beautiful destination. Ahoy! All aboard.

The brainstorming sessions had started, we had to finalize our unit. We had a lot of discussions, debates and finally we all unanimously agreed on our unit. "How the world works". Then was step 2 where we finalized our lines of inquiry. Each group was assigned a line of inquiry. My group got: "Inventions and Innovations impact sustainability"

This is where each group started working individually on their lines of inquiry. We had a lot to do: charts, models, research. As for our group we had many, Eureka moments. One of them was when we decided to make a smart city. We brain stormed, discussed with our mentors and finally flipped the idea to a smart village, the opposite of our city. We researched again and started with full ahead engines! This is when our home room teacher asked for our parents to come in and mentor us and help us to shape our ideas.

It was early February 2016 and we needed to gear up double speed and we were on to it. The teachers, parents, mentors giving us all the guidance and support, we took our ship ahead and reached our destination. The Grand Finale day of our exhibition, was just 2-3 days away. We worked on our models, rehearsed our speeches. Finally came, the assembling of our models, charts and all our ideas which needed to be displayed in the library. The library was our canvas and we painted it the best with our team efforts.

The day we had all worked so hard and dreamt of as a Team Grade Five (2015- 2016) finally arrived. We were so mixed up with our emotions, excitement, nervous, happy, worried, etc. The pep talk by our mentors, teachers and coordinator gave us a boost and we were all set. The Parents walked in and on the guidance of our PYP Coordinator and our home room teacher , we started with our small presentation, where we shared our journey, which was a splendid one with all our guests. Once started, we were like a team on fire, we rocked the show.

We sure did not forget to thank our School, Mentors, Teachers and Parents, who helped us through our journey. It is truly an experience, I, Shanay will not forget. The learning knowledge is immense. Also the result of TEAM EFFORT AND HARD WORK is learnt. I am truly lucky to be a part of this wonderful PYP Journey.

UPCOMING INITIATIVES

- MSA Accreditation – For our campus to be recognized as an American School Campus. Students can then transfer the credits from school through college.
- Immersed curriculum is being developed for our students to have a smooth transition from school to high school and universities in USA.
- Offering various Certificate Diploma Programs as well as twinning programs.

THE BRAVEST

MOMENT OF MY LIFE

Just a few months ago, I saved a puppy from being hit by a car and I was really happy that I saved his life. It was the bravest moment of my life.

It all started on a bright morning. My friends and I had planned to meet up and have study, play-day at Ann's house. I woke up at 8.30 am and freshened up. I had a bath, wore denim pants, a white t-shirt with watermelon print and put on my cap. The next thing I did was put up my books in my bag pack with my pencil case. I had breakfast and asked my dad to drop me.

I sat in the car and my dad drove me to her house. On the way, there was too much traffic (while going). We were stuck in one place for more than 30 minutes. I was getting really very bored so I put some music and started looking out of window. Suddenly I spotted a dog. It was adorable. It was whitish-brown in colour. Unfortunately, it had no family and home. I felt very sad. All of a sudden, a car whizzed by. I almost skipped a heartbeat thinking it might have hit the dog. I saw a car coming with a great speed and at the same time the dog had decided to cross the road. I was getting really very scared, so I got down the car ran to the dog to save it. I signalled the car to stop and picked the dog up. When I returned to the car, my dad shouted at me but I was proud of myself for saving the dog.

Now it is my pet dog mostly my companion. Its name is Zac and I love it a lot. He is very cute too.

Dipansha

If I could invent a new Toy

If I could invent a new toy, I would make sure it would help the person who is playing with my toy, in many different ways. As we all know there are many great people out there thinking about a new invention! And I am sure I'm one of them! It would be really great if this wish of mine could come true! But to invent something new or something different we have to work very hard! We have to think very hard and we all know the quote "A mistake is the sign that we are learning."

Now imagine you are sitting really bored in your house and suddenly the Bored C.Y.M.G (Change Your Mind Gadget) pops out in front of you. Then when you read the instructions and then you understand what it is. Well you are bored and you are saying, "I wish I had a toy car." You wish and the Bored C.Y.M.G. will get you a toy car! But you will be surprised and must be thinking how did this happen? Where did this come from? Well the Bored C.Y.M.G. transformed itself into the toy car. You will not be bored anymore. You will be really surprised.

Well the Bored C.Y.M.G is a very helpful gadget and it can transform itself into anything like a book, a toy car, a pen, anything in the world! I really hope this comes true!

JOLLY PHONICS WORKSHOP

We at Ryan, place emphasis on teachers development and growth. As per our Chairman Sir's vision, we continuously try to enhance teachers professional development through their constant training. A workshop on Jolly phonics was held at Ryan Global School, Andheri. This workshop was attended by about 200 teachers from all Ryan Schools. It was a great workshop in which expert speaker from abroad Mr. Chris Jolly and Mrs. Shainaaz Jussa had come. Jolly phonics has been developed by Sue Lloyd and Sara Wernham, who were primary/elementary school teachers at Woods Loke Primary School in Lowestoft, England.

The workshop started with few prayer songs which brought in total energy among all teachers present in the auditorium. The guests were introduced and they then took charge of the workshop. Teachers were told about the principles of Jolly Phonics, Jolly Grammar and Jolly Music, and how these child-centered, multi-sensory approaches make learning fun and easy for children. The five basic skills for reading and writing were introduced:

1) Learning the sounds

2) Learning letter formation

3) Blending

4) Identifying sounds in words

5) Spelling the tricky words

The above topics were introduced with a lot of examples and teachers were all made active participants by creating the 42 sounds of English that were taught during the workshop. Actions for the various sounds were also taught. Basics about grip while holding a pencil were introduced. The concept of Blending - the process of saying the individual sounds in a word and then running them together to make a word, was also told.

At the end of the talk the speaker was facilitated for her motivational talk. Teachers of Ryan Global, Andheri played a game towards the end to thank the speakers through the use of phonics. It was indeed a wonderful workshop with a lot of learning and brushing up of concepts which sure will help in the professional development of teachers

On 5th October 2016 , Students of Ryan Global School and Ryan International School Cbse malad and kandivali had an interaction session on education study abroad with Ms. Elizabeth (Bessie) Bennellick, Director of International Programming, California University of Pennsylvania. She interacted with the students of Grade 10/11/12 for admission in university of pennsylvania for undergrad programs . students were given a deep understanding of the programs, subjects offered and the entrances they need to give now to have a smooth application process. They were also given a tour of the residential campus and the procedure involved in applying for admissions .

Interaction with Ms Elizabeth Bennellick

Visit of IB official Mr Steven Wishard

RGS was honoured to welcome Mr. Steven Wishart, International Baccalaureate - Associate Regional Manager Asia Pacific (School Services PYP) on 7th September, 2015. Mr. Steven was on a visit to India to conduct a series of IB workshops to enhance teaching learning methodology. His visit has helped the PYP team to incorporate the best strategies and practices for effective implementation of the programme. On his visit he invited RGS to be part of the Webinar sessions with IBO that has helped to connect with the best practices of IB PYP schools across the globe.

PROCASTINATION

Have you ever put off your school assignment because you believe watching an episode of your favourite TV show is more important than giving enough time to work? If yes you have a serious issue called "Kicking the can down the road" or what people call procrastination. Believe me or not everyone of us has experienced it once or still experience it every day.

Let's break it down. We think procrastination is a problem that has no cure but it really is just a bad habit that most of us possess. It is an imbalance or lack of relation between what you intend to do and what you implement. We always plan to evenly distribute the work from the day we get our assignment to the day it is due but we always fail to follow and end up starting the day before or sometimes even the day it is due. Just take a moment and think how successful will that assignment be compared to the one you would have started earlier, taking enough time without stressing yourself out in order to finish it in a day or couple of hours. The difference between those two assignments is the price you pay for staying in your accustomed comfort zone. A shriveled unproductive world that fills up all the space for idea creativity and opportunities with unnecessary avoidable wants like gaming, excessive sleeping or watching TV.

So how do you beat this habit?

* One way is to ask yourself a few questions like "why am I delaying my work?" Or "Is this more important than getting my assignment done?"

* You need to identify the common excuses that are crowding into your mind and know how to overcome them.

* Give more value to your task.

* Another way that I personally find tired is to ask your parents to hide the things that distract you the most like the remote to your TV.

* Reward yourself.

* Just as you're going to reward yourself after finishing a task you should set a penalty that you must face if you don't

It might be challenging to apply some of these solutions but they are effective. If you need to tame the procrastination monster in you, you will need to take a strong initiative. By achieving this, you will start utilizing your time effectively, efficiently and be more disciplined. These benefits will be useful overtime so find those excuses that are pulling you down and fight it.

Grade IX

Why is it important to be Honest

Honesty, a rare element in the atmosphere of the present world. It requires a positive and just side of a person to be honest at all times. Honesty is a genuine quality naturally found in a handful of people.

Honesty is one of those precious qualities that are snubbed by. They deserve a marvelous applaud and appreciation. The importance of being honest at all times resolves many conflicts and unites many relationships. Many a times being honest can result in torture and humiliation. Honesty may not always benefit, but there is a God watching your actions and he will reward your honesty.

In many fields like business and commerce world, honesty is null. It is brought forth that honesty leads to only loss, thus it is absent in fields that are business related. The basic issue is people are self-centered. This results in harm to the fellow colleagues.

Honesty saves time and makes things peaceful. Honesty is a good weapon in life which benefits us through many advantages. Therefore, honesty is the best policy!

Visit of International Interns

On the occasion of children's day celebrations, we had international interns joining us as part of the exchange program in the special assembly. They were welcomed with the welcome song and felicitated with sapling as a mark of green environment globally. We had Martin mohr and Filip Janouch from Czech republic.

Our international interns were also part of the special assembly . Mr Martin and Mr Janouch Filip also showcased their talent in front of the Children's audience and did some drama movements which made different types of sounds and had exercises involved . It was a good start to the enrichment cultural exchange program .

NAFA - Art & Design Workshop

NAFA Established in 1938, the Nanyang Academy of Fine Arts is Singapore's pioneer arts education institution. Widely recognised in Southeast Asia, NAFA's reputation is founded on its innovative curriculum and teaching approaches, as well as its diverse artistic creations. NAFA receives polytechnic-level funding from the Ministry of Education, Singapore and is the first comprehensive arts education institution to receive the coveted 4-year EduTrust certification awarded by the Council for Private Education in 2011. NAFA offers the specialised programmes under the School of Art and Design, School of Arts Management, Dance and Theatre, and School of Music:3D Design, Arts Management, Design and Media, Fine Art, Fashion Studies, Dance, Music, Theatre etc.

Our guest facilitators were welcomed with badging and plantation ceremony followed by a school tour to the students class rooms. Students were shown video presentations and glimpses of life at NAFA. Also, they were given hands on experience on the art and design workshop and how creative can things be. The activities conducted by the members of NAFA evoked a very high level of interest and creativity among all students. They distributed gift hampers among students with amazing display of art during the workshop. The 3 standout participants in the activity were awarded for their novel ideas. The expert knowledge of the members was very insightful. The entire workshop was very informative & purposeful.

Sports Day @ RGS

The school playground of RGS was filled with great zeal, excitement and frolicsome atmosphere on the November 2016 celebrated its Annual Sports Extravaganza - based on the theme "I AM A WINNER" and witnessed huge participation by the school community

The much awaited Annual Sports Day was held on Thursday, 24 Nov 2016. The fantastic turnout from the parents and the pleasant weather were the perfect boost for the students on their sports day. Mr. Milind Wagle, renowned commentator from the sports field, Mr Antonio Lopez who is UEFA 'Pro' licensed coach, one of the topmost licences in Football Coaching in the world. He is currently working with BOCA JUNIORS FOOTBALL SCHOOL INDIA, Mumbai. He is the Technical director & Head coach for the academy which has over 100 players across Mumbai. Mr. Paresh Kothari, Director Sports Gurukul were among in the Guest list. Mr Arijit Singh - Famous Singer and Ms Shriya Saran were also felicitated honouring their presence for the Sports day.

70 YEARS OF INDEPENDENCE

India got freedom on 15th August 1947. Every year on 15th August every Indian celebrates Independence Day proudly. Indians got freedom by Mahatma Gandhi who always fought for truth and freedom.

India got freedom from The British Rule for so many years of their ruling. On 15th August every Indian proudly sings The National Anthem – Jana Gana Mana and respects the flag.

All Indians treat each other with respect and treat everyone with courtesy. Indian had many freedom fighters who fought viciously. Indians are very proud and love the rich and varied heritage. Every day in all schools all over India students and the teachers take a pledge on India.

Every Indian loves their country and are proud of their Nationality.

Mehak
Grade XI

Punctuality is one of the main building blocks of our character. When we go to school on time our punctuality creates a good impression on our teachers. Punctuality is the characteristic of being on time or doing some task on time or by a fixed time. "Punctual" has the same meaning as on time. Punctual can also be related to taking about grammar meaning 'to be accurate' An antonym for punctuality is tardiness or lateness. We should do our homework regularly and present it punctually. We should be punctual in our work and study all through the year not only before exams. Better than being on to me is to be before time especially when we have to catch a train or plane or if we have to face an interview. Punctuality means discipline. When people in authority notice we are disciplined they are favourably impressed as it reflects to some extent on our character.

In different cultures there is a difference about the degree and importance of punctuality. If we go by the indian standard time rule which allows and even condones lateness then we are often late and we tend to make excuses for our lateness for a doctor's appointment or being in time for school we have to be stricter. In cultures which value punctuality being late is often seen as a sign

of disrespect for others time and may even be considered as an insult. A comical example of learning punctuality is from our stomach. If we do not feed it on time it plays up and refuses to function properly leaving us hungry or full of gas and miserable. This priceless value or virtue of punctuality is to be cultivated by everyone early in life, to avoid so many useless losses. It can take us a long way on the road to success in life. Remember a stitch in time saves nine and time and tide wait for none. So let us all cultivate this precious quality and golden rule of punctuality

GLOBAL WARMING & CLIMATE CHANGE

Global warming and climate change are the terms for the observed century scale rise in the average temperature of the earth climate system and its related effects . Multiple lines of scientific evidences show that the climate system is warming. Although the increase of the near surface atmospheric temperature is the measure of the global warming often reported in the popular press , most of the additional energy stored in the climatic system since 1970 has gone into the oceans . The rest has melted into ice and warmed the continents and atmosphere. Many of the observed changes since the 1950s are unprecedented over tens to thousands of years . Scientific understanding of global warming is increasing . The intergovernmental panel on climatic change reported in 2014 that scientists were more than 95% certain that global warming is mostly being caused by human (anthropogenic) activities , mainly increasing concentration of greenhouse gases such as carbon dioxide. Human made carbon dioxide continues to increase above levels not seen in hundreds of thousands of years . Currently. About half of the carbon dioxide released from the burning of the fossil remains in the atmosphere. We must make efforts to restore our surrounding and protect ourselves from Global warming and Climate change .

HUMOUR IS THE BEST WAY TO RESOLVE CONFLICTS

"Laughing is the best medicine" one of the most true and famous sayings. The bible says" sorrow lasts for the night but joy comes in the morning". No matter how black things appear laughter can vanish it all. The people with humour are the best people not because they have the ability to crack jokes but the magic to make one smile. The few seconds a man laugh is the time he forgets all his sorrow, his heart feels much better and lighter and souls feels more happier and the mind gets positive. We all enjoy only when we laugh. Laughing and fighting are north and south for each other however laughing resolve fights not because it distracts a person from the point of view but because positive vibes heals the negatives vibes. Laughing smiling giggling is the most precious gift to man of Earth, it teaches man how we live. If the conflicts get serious humour can make it silly. It's not the reason to laugh but the number of time you laugh. People say" there isn't a reason to laugh. Conflicts are the unwanted part of our lives, the only way or the best way to resolve it is through humour. we all possess humour at times but what matters is when we press it therefore when it is needed the most is during conflicts.

People with good humour are the most amicable and are loved immensely. Possessing good humour is an art..it is a rare talent that is found in people. The most serious conflict can only be resolved laughter. We all have had experiences of a part of conflict with friends a family, and I am sure it came to an end only with jokes and laughter. People in fights or conflicts have ended up because of good humour. I believe humour is the key keeper of our relationships, it makes conflicts come to an end in the most positive way. Laughter spreads positive vibes in the best way. I believe humour is now become the most common way of spreading happiness. Humour also vanishes and makes a person more fit and health. It is the best gift given to God by man.

GUINNESS WORLD RECORDS for Charity Donation

The Ryan International Group of Institutions was recently recognized for its efforts for charity by noneother than the GUINNESS WORLD RECORDS.

The Group's school in Sharjah received this accolade for participating in the world's largest charity donation for the poor. The students collected over 205,122 items of clothing for donation. This was verified by the authorities of Guinness World Records and was declared as a record.

Madam Grace Pinto sharing the joy of being recognised by the Guinness World Records with Shri. CH Vidyasagar Rao, Hon'ble Governor of Maharashtra

"It is gratifying and humbling to be recognised, especially on a world platform. It is the estimony of sincere effort and commitment of our staff, students and stakeholders in nurturing holistic, compassionate and responsible leaders."

Madam Grace Pinto
MD, Ryan Group

THE CHILD IS THE FATHER OF THE MAN

Child is the father of the man
Child is the father Rightly said,
Save the child
Save the child
From poor nutrition
Save the child from hunger and
Lack of education
Your future is there in the child
Save the child from all danger
And build you bright future men
Your journey starts here it starts now, your future is now in
your hands and no one shows how to make it , unfold it and
have turn it what you want to be . Not anybody, not me take it
a step at a time
Even if your plans were stopped.
Be careful and listen, learn from your mistakes
Because one day you will be advanced on choices you make
Your future is here and its now
But don't worry you will show yourself how

HOW NICE I AM

How nice I am, I've learned to be
I raise my hands before I speak.
How nice I am, I've learned to be
I sit on my chair most properly.
How nice I am, my best I do,
I use the words "Please" and "Thank you"

How nice I am, try to be kind,
I wait for my turn and stand in line.
How nice I am, I've learned to be,
I say the words "Sorry" and "Excuse me"
How nice I am, I'm here at school,
I try to live the Golden Rules.

The Editors Choice Award

Mr. Ryan Pinto, CEO, Ryan Group receiving the award from Dr Ayoub Kazim, Managing Director, Dubai Knowledge Village & Mr. V. Radhakrishnan, State Minister of Education, Sri Lanka at the World Education Summit, Dubai, Feb 2016 for exemplary service in promotion & development of quality school education across India.

Hearty Congratulations

Give thanks to the Lord, for He is good; His love endures forever. (Psalm 118:1)

HARRISBURG UNIVERSITY OF SCIENCE AND TECHNOLOGY

INTERNATIONAL

In today's world it is important to prepare our students for a more heterogeneous world that they will face in near future. The Ryan International Group provides multiple options for learning foreign languages and cultures while retaining core values. Structured exchange programmes involving both students and teachers, at the national and international levels are a part of the learning process at the Ryan Group.

Estonia

Our students recently had an exchange with the Eve Studio in Estonia. It was a wonderful opportunity for the students to visit Viljandi in Estonia, which was the part of former USSR. Students had workshop on Circus and Estonian Folk Dances dance by Marco Bonisimo and Tiia Kadalipp.

Thames Valley Summer School, London

Ryanites had a golden opportunity to be a part of the Thames Valley Summer School programme held at St John's School in Leatherhead, London. The programme gave students a glimpse into the architecture and ancestral traditions of London. The students also attended a session on listening and speaking English conducted by Trinity College that was held on the school's campus. The students also got a chance to interact with other students from Germany and Russia and understand their traditions and customs. It was a wonderful programmes that helped students deepen their appreciation for diversity of cultures and be a global citizen.

Walk with Nature

What a lovely start of a day
On a walk with the nature everyday
The beautiful delights to our senses, the fresh dew smell
The lovely sight of Sunrise, hearing fluttering butterflies,
smelling freshly baked cakes
feeling all this you feel so fresh

The joy of little things I see
The dogs running on sand beach
A girl with her nose down in a book she reads
A sweet little child dancing as the mother's sings
Far away I can hear a priest preach.

The blue sky as clear as a sheet
The blinds flying across with their open wings
New memories with each walk, I take
Are the most precious treasure than materialistic things

I thank God for giving me my two feet
My eyes to see, my ears to hear my nose to smell
I thank my parents for giving me my life
I can walk and see beautiful things
My heart is forever in an awe when I talk,
About the things I see when I take a walk

Over 40,000 people enjoyed Ryan's International Children's Festival of Performing Arts recently held at 3 venues in Mumbai. The show had a variety of performing arts including cultural dances, puppetry, juggling, choirs, theatre and music. The audience were spellbound by the sheer size and spectacle of the show. The Hon'ble Governor of Maharashtra, Shri. CH. Vidyasagar Rao was full of praise for the event and said, "The Ryan International Group of Institutions has become a nationally acclaimed institutions offering quality education in various states of the country." He further added, "All children who have come here to display their country's cultural traditions are Cultural Ambassadors to India. I am sure, as grown up citizens they will remain lifelong friends of India. This according to me is the real strength of this festival.

International

Children's Festival

of Performing Arts

Madam Grace Pinto, MD, Ryan Group, Shri. CH Vidyasagar Rao, Hon'ble Governor of Maharashtra, Dr A F Pinto, Chairman, Ryan Group, Juhi Chawla, Divya Dutta, Kiran Shantaram, Rajit Kapur and Ryan Pinto, CEO, Ryan Group at the Opening Ceremony

The visiting countries were thrilled with the whole experience. Mr. Holger Leister, Leader of Traumer, Tanzer und Artisten, Hannouer, Germany said, "This is my second time to this festival and it has become even better. This is such a colourful and gorgeous show. We have travelled to many countries but India is always special. I am very grateful to the Ryan Group and Mrs. Pinto for the fabulous time."

The festival was graced by eminent dignitaries; these included Juhi Chawla, Kiran Shantaram, Shaina NC, Divya Dutta, Rajit Kapur, Saroj Khan, Johnny Lever, Mr. V. Ramaswamy (CEO, iON, TCS), Ramesh Sippy, Kiron Juneja, Siddharth Kak, Mukesh Khanna, Sharman Joshi & Ms. Kanika Chowdhury (Special Envoy & State Ambassador for Pennsylvania State) amongst many others.

OBJECTIVES OF THE FESTIVAL

- To bring forward performances by children which broaden the horizons of understanding of different cultures.
- Giving an opportunity to children from the backward class to view and be a part of the festival.
- Harmonizing strained relations between countries through young performers.
- To educate, entertain and bring awareness of issues that concern the world today.
- To keep creative experience alive.
- To showcase a broad range and variety of performances to children.
- To Stress upon the importance of dance, drama and music in upbringing of children.
- To promote the image of India as a country, rich in culture as well as a nation, open and eager to learn about the traditions and arts of other countries.

In keeping with our Chairman Sir's vision of providing all-round development to our students, the Ryan Group under its sporting arm-- Ryan Sports Club offers regular training to students to hone their sporting talent.

As part of its wide ranging activities, Ryan Sports Club organizes Ryan Minithon, which is one of the largest sporting events at the school level in the country. The Ryan Minithon has completed more than 19 years and has organised over 133 races in 70 cities, in which more than 7 Lakh students have participated so far.

With every passing year, the popularity of Ryan Minithon is touching more lives. It is a platform that truly connects the academic with the extra-curricular, offering students an opportunity to grow up as well-rounded individuals who are mentally capable and physically fit.

We believe that sporting is not just a physical activity, but an opportunity to identify, train and nurture the best sporting talent, who will make our country proud at an international level. For this to happen, Ryan Sports Club has tied up with international sporting bodies to offer our students the best possible infrastructure and expertise to win laurels at the global level too.

RYAN SOCIAL CONNECT

Community Service Initiatives

The Ryan Group strongly focuses on activities that are aimed for the welfare of the society. We believe that such acts generate awareness among the students and helps them develop an attitude for a better world. The Ryan Group has spearheaded various humanitarian projects of giving access to education, healthcare and aid to the less privileged. Ryan schools undertake various projects based on the six parameters to transform the society. These parameters are: Compassion, Environment, Education, Health Care, Economic Empowerment and Local Leadership Development.

The Ryan Group has reached out to different sections of the society nationwide and has undertaken several remarkable initiatives by adopting orphanages, blind homes, homes for the elderly etc. Anubhav and Radiant Schools provide education to the underprivileged children. A school for the visually impaired children has also been started in Asansol, West Bengal.

Distribution of Free Blankets at Raebareilly

Ryan Pinto, CEO, Ryan Group, visited some villages in Raebareilly to celebrate Christmas with the residents. He also distributed free blankets among the needy along with the students of Ryan International School, Raebareilly.

Ryan Matriculation School:

Ryan has been instrumental in establishing the Ryan Matriculation School that educates the young children of the tsunami affected villages of Puducherry free of cost with best of facilities

Emmanuel Home- Haryana:

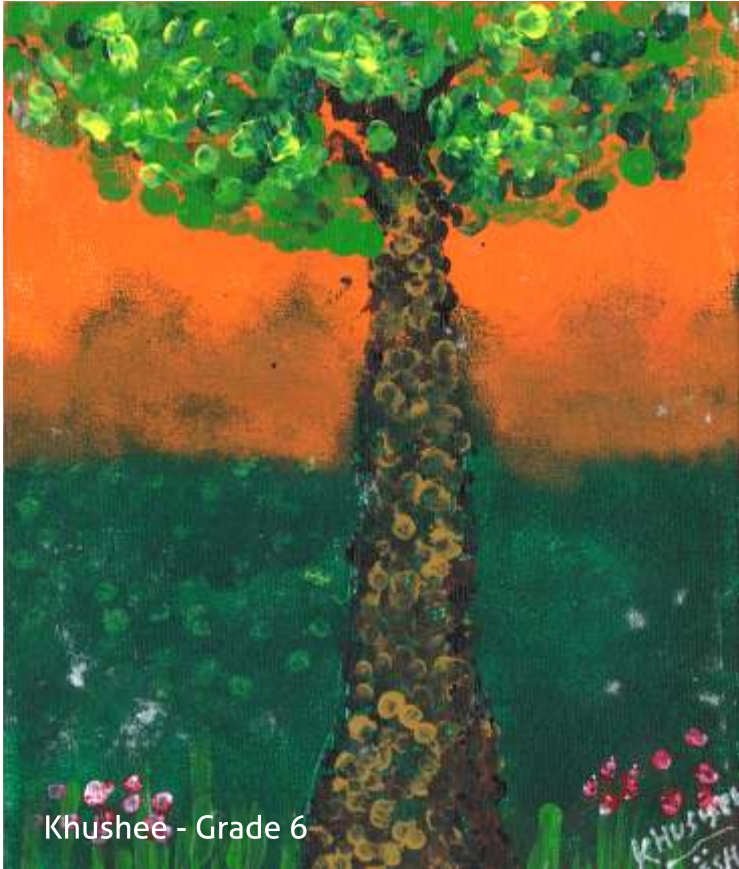

It is indeed a noteworthy act of Ryanites that every month, students from each of the Ryan Schools from NCR adopt the Emmanuel Home in Haryana and support these less privileged children by donating medicines, clothes, eatables, stationery, books and food .

Mahipalpur Project:

Ryan Students have taken up projects like transformation of village Mahipalpur 2010-2015 thus realizing their social responsibility towards the society. Similar projects have also been carried out by the student for the villages in Raebareilly.

RYANITES AT

Every year more than 200 students from the Ryan Group visit NASA to participate in various student related projects. So far, over 2500 students from our schools have visited NASA in the last 15 years.

Students from Ryan International Schools attended the Space Challenge program at NASA's Kennedy Space Centre, Orlando, Florida. The objective of this programme was to enable the young Ryanites experience the Iconic American Space Research program. This educational programme was organized for 10 days and was study cum sights seeing programme as the students also got the opportunity to visit the important landmarks in the United States of America. The ever exploring young minds spent the entire week touring and learning about the facilities at KSC, and interacting with the astronauts.

THE NASA EXPERIENCE

I, Hozefa Zujar Jariwala, got the lifetime opportunity to participate in the NASA educational programme, at Kennedy Space Centre, U S A, organized by the Ryan International Group of Institutions during the summer vacations. Our group was a mixture of students from various schools of the Ryan Group and I must say it was a memorable experience for me. Attending the ATS training, exploring the Space missions under taken by NASA and also having first hand interaction with the astronauts was a amazing. I have learnt a lot from this programme. Besides the main objective of the programme, we were also taken to various major places of attraction in the USA. All of us enjoyed the programme thoroughly and we are indeed grateful to Chairman Sir, Dr A F Pinto, Madam Grace Pinto for providing us this exceptional platform to learn and become global citizens in this globalized world.

Christmas

BLESSING CEREMONY

Madam Grace Pinto, Apostle Maldonado, Shri. Devendra Fadnavis, Dr. A. F. Pinto & Ryan Pinto at the Christmas Blessing Celebration.

The Ryan International Group of Institutions organized a "Christmas Blessing Celebration" at The Dome, NSCI for their students to instilling family values amongst them. Hon'ble Chief Minister, Shri Devendra Fadnavis graced this occasion and encouraged the students with his motivating words. Over 10,000 students from Mumbai and Navi Mumbai took part in this mega celebration and received the much needed benefits.

Shri Devendra Fadnavis congratulated the Ryan International Group of Institutions for their endeavours to bring value based - holistic education to the youth of our society. He also extended his best wishes for Christmas to the gathering. Students were urged to anchor themselves to values in order to grow up to be responsible, value laden individuals of tomorrow. During this celebration the students also prayed for India that the year ahead be full of harmony and prosperity. Madam Grace Pinto, Managing Director, Ryan International Group said, "Over the last four decades, the Ryan Group has been committed to impart quality education to our young students. Along with the rigours of academia, we ensure that values and morals are instilled among students to help them become life-long learners. We are grateful to our Lord Jesus Christ for enabling us serve the nation through education.

RYAN TV was started in 2008 by the Ryan International Group of Institutions, with the aim of providing media development to its students. Embodying the vision of Dr. A. F. Pinto, Chairman of the Ryan International Group of Institutions to equip students with skills in the field of media. RYAN TV conducts various media courses for students as part of the curriculum as well as through separate short term training courses. RYAN TV has state-of-the-art studios located in Mumbai (Malad - Chembur) and Bangalore. These studios are used to train students with the latest in the world of journalism and filmmaking. These well-equipped studios are crucial in providing hands-on experience to the young students who are familiarized with the fast changing technological innovations by our studio experts.

Ryan International Group Hosts 8th IAFA AWARDS

CH Vidyasagar Rao, Madam Grace Pinto, Mukesh Sharma and Ryan Pinto with the winners

The evening of 20th October witnessed the much awaited 8th Iceptex Ad Film Awards (IAFA) organized by Ryan TV, part of the Ryan International Group of Institutions. Students from across the country make short socially relevant ads, which are judged by an eminent Jury. This year saw over 30,000 entries from across 60 cities in India.

Chief Guest, Shri. CH. Vidyasagar Rao, Hon'ble Governor of Maharashtra presented the awards to the winners from all across the country. He said, "I congratulate the Ryan Group for conceiving the Online Ad film making contest for school children and for nurturing and sustaining the event successfully for all these years. Amazing is only one word, that comes to my mind after watching the ad films made by the students. I am very happy that topics like Women Empowerment, Health, Safety, Water Conservation, Environment and Child Nutrition were given to the students for making Ad Films. I will appeal to Managing Director Mrs. Grace Pinto to make IAFA a national and international event."

Mrs. Grace Pinto, MD, Ryan Group said, "Ryan's IAFA is one amongst many platforms that we provide to our students to showcase their talents. I thank my Lord Jesus Christ for his blessings and for making this event a big success."

INDIAN MODEL UNITED NATIONS

TOMORROWLAND

A Quest for a Better Future

Ryan International Group hosts 16th Indian Model United Nations Conference

The Ryan International Group of Institutions recently organised the 16th Indian Model United Nations (INMUN). This simulation of the UN hosted a series of speaker sessions with envoys from multiple countries such as the United States of America, Canada, Australia, European Union, Afghanistan, Estonia and Israel.

Over 1000 Students from across Europe, Africa and Asia participated in the conference. Madam Grace Pinto said, "We are grateful to our Lord Jesus Christ for enabling us to start INMUN. It has a decade long history of hosting interactive speaker sessions that bring together the best and the brightest from various walks of life."

This leadership conclave that inspires the youth for a brighter and prosperous tomorrow is the brainchild of Dr. A. F. Pinto, Chairman, and Managing Director, Madam Grace Pinto, Ryan Group.

H.E. Mr. Jess Dutton

*Acting High
Commissioner of Canada*

I would like to congratulate the organizers of the Indian Model United Nations conference and wish all the best to the participants. The Government of Canada has a vision for the 21st century which includes embracing our diversity to tackle some of the world's big challenges, from the global level down to the local community level. Our Prime Minister Justin Trudeau has made it a priority to engage in global affairs, including through the UN. Just last week, while addressing the UN General Assembly, Prime Minister Trudeau committed Canada to do its part in addressing climate change, bolster peacekeeping operations, and strengthen health and development outcomes. There are no easy answers, nor solutions, but debating these issues in the Model UN format is a good start towards a better understanding.

**H.E. Mr. Shaida
Mohammad Abdali**

*Ambassador of
Afghanistan to India*

Under the current global scenario, ensuring security of the nations should be the utmost priority of our Governments; particularly with the aim to provide equal opportunities for all our children to education without fear and thereby ensuring a safer, better future for our nations. To that end, we look towards the United Nations as a responsible global organization to institutionalize peace and solemnize further the existing ties between countries for a harmonious existence.

In this context, I convey my heartiest wishes to Ryan International School for organizing the Indian Model United Nations 2016 for paving the way and spreading the message that walking hand in hand and shoulder to shoulder is the best way forward to a blissful future.

In the meantime, as Afghan Ambassador to India, I strongly advocate diplomacy as an imperative tool to resolve disputes and carry forward the historical values of our countries and utilize them with best of our abilities for establishing global awareness and mutual cooperation between our countries.

Wishing you a fruitful programme and look forward to an enthusiastic participation.

H.E. Mr. Riho Kruuv

*Ambassador of Republic
of Estonia to India*

Dear INMUN participants, We live in the era in which more and more issues that we face in our everyday life need solutions or decision making at global level. Be it management of water resources, cutting CO2 emissions, free passage of commercial ships in international waters, just to mention a few. It is hard to find the issues that are purely local nowadays or can be solved by a single country alone. It requires people and nations to come together and this is what United Nations is mostly about.

UN as an ultimate multilateral organization is a sophisticated institution which was created to preserve peace and find solutions to our common problems. Even if it is not always up to this task or is slow to produce the results, we do not have many alternatives. We simply have to make it work!

Model United Nations concept and events like ours will help to train new generation of diplomats, businessmen and statesmen, and other stake holders in international affairs. Better understanding of how the real United Nations work will only add hope that at some point we as the global village will be able to overcome the challenges that we face now and tomorrow. Wish you all the best and looking forward to our meeting and lively discussions.
