Dear Reader,

It gives me immense delight to connect with you to congratulate you for this edition of "Fenetre". I pray that all of you are keeping good health and are safe during this difficult time of Covid-19 situation. The academic year that has gone by had been an incredible year for the Ryan Group of Schools with achievements, awards and accomplishments. We congratulate our parents, well-wishers, staff and students for their cooperation and consistent efforts to help the school remain ahead on the ranking curve in the field of education. The achievements of our students are extremely gratifying. We are deeply grateful to God for His special favour upon every child studying at the Ryan Group.

Every child is special and has tremendous potential to influence the environment in which he/she resides. Children decide the future of any country or any civilization. Therefore they need proper foundation and development of their personalities. They have the potential to uplift the nation towards greater prosperity. The 21st century is an age of globalization

Your word is a lamp for my feet, a light on my path. (Psalm 119:105)

enveloped with technology. The time is ripe for every child to unfold and discover herself/himself. Unless children respond to the opportunities at the right moment, they will pass by as idle winds. Children, do not lose self esteem as it is the real magic wand that can form your future. Be focused as it ultimately leads you to the fulfillment of your goal.

Finally, I urge you dear children to make the best of every opportunity provided to you and reach the pinnacle of success in your own area of interest, skills and talents. Congratulations to all our young achievers and all those who have contributed towards this school magazine. Keep up your fine spirits and be consistent in you dedication and commitment.

Enjoy the enriching educational experience at Ryan!

*Dr. A. F. Pinto
Chairman
Ryan International Group of Institutions*

Dr. Snehal Pinto, Director, Ryan Global School With Her Team

 **TIMES-ICON
2019**

Dear Reader,

We hope and pray that you are healthy and safe during these challenging times of the pandemic. Thank you for your support in helping the school to continue the teaching-learning process on the virtual interactive platform. Even as you continue to stay safe at your home, we are delighted to congratulate our parents, staff and students as our Ryan Global School, Andheri was once again adjudged and ranked among the Best International Schools in the city by The Times of India Education Survey 2019. The year that has just gone by has been a fascinating journey for our students with a wide range of enriching and engaging activities and events. We are happy to share with you this edition of 'Fenetre' which beautifully showcases our students' creativity, ingenuity and their achievements under the care and mentorship of their teachers during the last academic year. We are grateful to Dr. A. F. Pinto, Chairman and Madam Grace Pinto, Managing Director of the Ryan Group for their constant motivation and support to all our endeavours at Ryan Global School. I give all glory to God for their lives and thank our Lord Jesus Christ for His grace and all that we have achieved during the last year.

Ryan Global School aims to not only help our students grow academically, but also prepare them to be caring, confident and lifelong learners. We strongly believe that learning is a lifelong process and it is best achieved in a safe and caring environment. We express our gratitude to our coordinators, staff and parent community for their active involvement and partnership in this entire process. We appreciate and commend every effort made towards the wellbeing of our students. We are sure that our students have imbibed the best practices at Ryan as they are being nurtured to be responsible global citizens equipped to face the challenges of the 21st century life.

Finally, congratulations to all our students for their contribution towards this issue of 'Fenetre' and for all their achievements in their respective areas of expertise and interest. We wish you success and more achievements and look forward to your collaboration for better learning outcomes as we move ahead with blended learning environment.

Best wishes,

Dr. Snehal Pinto
Director
Ryan Global School

INMUN Session is Progress*

EVENTS & HAPPENINGS

INVESTITURE CEREMONY

"A leader is one who knows the way, goes the way, and shows the way." – John C. Maxwell. The Investiture Ceremony of Ryan Global School, Andheri was celebrated on 9th October for its Academic Year 2019-2020 with great pride and zeal. The ceremony began with the prayers and the prayer songs asking for the lord's blessings. The students gave a welcome speech in English, Hindi and French followed by the welcome song. Writer-Director, Mrs. Seema Kapoor was the guest for the ceremony. Her positive aura and heart-warming smile brought optimism to the ceremony. She gave a motivating and inspiring speech to the students. She mentioned that one must focus more on the present and give their best. Kalika Dharmi of Grade 12 gave a short speech on, 'The importance of Student's Parliament'.

Then the students were presented badges for their respective positions by the guests and the school principal. The elected students' council took the pledge to help the school follow the 12 vision points successfully. Sanjana Pai of Grade 9 was elected as the President and she proudly took an oath of president promising to abide by the rules and responsibilities, which come over her and fulfill her duties with absolute faith and loyalty. It was the occasion where the young students were all prepared to don the mantle of leadership and discharge the responsibilities entrusted to them. In order to inculcate the leadership qualities in students and to hone to their leadership skills and to develop their personality, 'Student Council' is formed every year.

NASA DAY CELEBRATION

The NASA Day was celebrated on 29th July 2019 with great enthusiasm wherein students of different grades researched on the different planets of the solar system. As a part of the celebration, each grade was allocated one planet to present their research work using the anchor charts. * EY + EY 1 - EARTH * EY2 - MERCURY * GR 1 - VENUS * GR 2 - MARS * GR 3 - JUPITER * GR 4A - SATURN * GR 4B- URANUS * GR 5 - NEPTUNE

Students of the different grades researched on the various planets using various sources, which enabled them to get a deeper understanding about the planet assigned to that particular class. The students put up an attractive exhibition of the planets in the form of posters, charts, facts, puzzles, games and models of different planets. Each grade had different counters to share their research with the school community and gain an in-depth understanding of each planet of the solar system. Further, students reflected on their understanding using various strategies stating the knowledge they gained from the exhibition. It was a research to see what everybody else has seen, and to think what nobody has thought."

A to Z of EMPATHY

With the growing incidents of indifference in society, mental health is an essential life skill to nurture. It is a powerful tool to build social and emotional relatedness and connection with self and others. The Department of Mental Health and Behavioural Sciences, under the aegis of Dr. Samir Parikh, introduced a 45-minute workshop on the A to Z of Empathy for school students. The workshop prepares the students to learn empathetic skills and emotional intelligence. A Team from the Department of Mental Health and Behavioural Sciences, Fortis National Mental Health Program (Fortis Healthcare), conducted this much needed workshop for our students. Every human emotion was attached and related to each English Alphabet from the 26 letters, that's why the workshop is titled as 'A to Z of Empathy'. It was a workshop that made the concept of Mental Health easy to understand. The students were very engrossed in the workshop.

If students are made aware of mental health from their young age, they will not hesitate to talk about it and help others as well (even in the future). These workshops have a long-term effect focused on prevention better than the cure concept. At the end of the workshop not only the students, but also the teachers found it very helpful.

A HEALTHY DISCUSSION ON MENTAL HEALTH

On the 16th of August, a short Mental Health Awareness Programme was organised for both the students and the teachers by the Exceptional Children Organisation in association with The Live Love Laugh Foundation.

While the session for students dealt with explaining and asking them to address these issues, the teachers were explained how to take care of students who have trouble dealing with mental health. The participants were made aware of issues like anxiety, depression, bullying and their differences. This programme proved very beneficial to everyone as the teachers and students shared their grievances. Ms. Ashita, the speaker, also spoke about the different kinds of mental health professionals in the field. Helpline information, FAQs and even breathing exercises were provided in order to help anyone in need. This interactive session ended with all smiles on the faces of students and teachers. Mental health includes our emotional, psychological, and social well-being. This session was a great help in shaping the lives of our students and teachers in a positive way and we believe they in turn will definitely contribute to make the world become a better place.

EDUCATIONAL TOUR TO ANDAMAN

The Andaman Islands are a jewel situated in Bay of Bengal. They consist of roughly 300 small islands each with their own unique charm and beauty. It is a haven for beach and sunshine lovers and provides excellent opportunities for snorkeling and scuba diving. Students of Ryan Global School along with students of other Ryan Group of Institution schools went on a 5-day adventure to the beautiful Andaman Islands full of pristine beaches and grand locations.

The students had a guided tour of the cellular Jail and also saw the sound and light show which depicted the history of the Jail and its inmates with grandeur. It was a great experience for the students to learn history through an interactive medium. During these days, they visited the Naval Marine Museum Samudrika where they learnt about different species of marine and coral life. Visit to the Joggers Park gave them a panoramic view of the city and the city's airport and its runway. Ross Island visit and the underwater Dolphin boat ride were knowledgeable and thrilling. The journey to Mount Harriet National Park at Hope Town was a spectacular and a novel experience. Everyone brought back home not only Islands souvenirs but loads of memories to cherish.

Travel opens our minds and heart and makes us better people.

1...2...3...MLB!

The School organised a workshop on Baseball conducted by Rick Dell, General Manager of MLB Asia, Dave Palese and Ryo Takahashi, Manager of MLB India on the 11th of June 2019 on its sports grounds. The aim of the workshop was to introduce the students to the American game of baseball. Around 60 students participated in the workshop. They received baseball coaching -- learning how to pitch, throw, catch and hit like a professional baseball player. They were also taught about the importance of balance and how to swing a bat. The entire programme was coordinated with the support of the MLB Team, the coordinators, the school sportspersons.

Baseball has a small fan base in India hence this workshop was definitely different from other sports workshops. The students were very curious and threw a volley of questions at the smiling coaches. Even while playing, the students were full of energy and eager to learn. The workshop boosted the students' confidence & enthusiastically got involvement with a keen interest in the workshop. The coaches encouraged everybody to learn baseball. They also gave the certificates of participation to the students.

CHOCOLATE & FRIENDSHIP DAY

As a part of the Chocolate Day Celebration students of EY to Grade 2 were a part of a cooking activity where they made chocolate lollipops and decorated them with sprinklers. For the Friendship Day, students made friendship bands in class decorating it with various colourful decorations. The students of Grade 3 to 5 were a part of chocolate bouquet making competition where they created chocolate bouquets in the class and shared with their friends. Also, the bouquet had messages on Friendship.

MAKERS MELA 2020

I hear and I forget. I see and I remember. I do and I understand. – Confucius. The Students of Grade 3, 4 and 5 visited "Makers Mela 2020" put up by Somaiya College. The mela had students across the art & craft, engineering, science, bio and Do-It-Yourself sections where people exhibited their creativity and innovation. It encouraged students to initiate the mindset of inventing, creating ideas and action.

It was really a great learning experience for students, to identify and understand new possibilities of learning through such rich communities of learners who are already exploring it. Students visited different stalls and had individual interaction with them. Students were curious to know and had many questions about the making of their designs or models. Students derived the motto of "Where there is a need there is a way" from the visit. Overall a very interesting visit for our young learners to encourage in the Do-It-Yourself attitude. It enriches and encourages our students to be a creator and innovator in the future.

DOCTOR'S DAY CELEBRATION

Let your days be wonderful and healthy, Like you make it for others! I want to thank you, this DOCTORS DAY, You are an incarnation of GOD to others!

This academic year 2020, we thought of celebrated the DOCTOR'S DAY with a deep sense of pride and respect for the real heroes of our community. The Ryanites visited different clinics and hospitals where they witnessed doctors serving in different fields based on their expertise. Our aim was to make students aware of doctors specialised in different fields and also to felicitate them for the yeoman service they render to the community at large.

We stand strong, hale and hearty in life, as you dear Doctors are our guiding light! We are the happy faces, looking back at you... To thank you and honour you, for being our guiding light!

SESSION WITH AN ENVIRONMENTALIST

"Opportunities are like sunrises. If you wait too long, you may miss them." The students of Ryan Global School were grateful to have a lifetime opportunity to interact with Sir Shardul Bajikar, an environmentalist. The presentation began by explaining about the concept of a broken spectrum. Following the same route, he grabbed the attention of the students by asking and explaining them about the colour play of the sunset. He then explained the similarities in the chlorophyll and haemoglobin colour pigments. Through this, the students learnt how painful it is for a plant when a leaf is plucked from them.

He then moved on to energy and its origins and providers. He explained how seasons impact colours. He beautifully described how water plays an important part in persuading colours and emphasised on how different colours impact humans. He also elaborated how plants communicate through soil and how the colours on flowers attract the pollinators. He also drew the students towards the fact that birds are the best known exponents of colour. He then showed a picture of a blue oak leaf butterfly trying to camouflage in the appearance of a dead dried leaf. Students were impressed with his presentation and realised the importance of protecting the nature and our surroundings.

KALA GHODA ART FESTIVAL 2020

"Art is not what you see, but what you make others see." This beautiful creative world of perception and colours is what students of Ryan Global School love to live. Kala Ghoda arts festival gives every artist a wing to fly and Deep Ocean of creativity to swim in a world of thoughts and imagination.

This was our 5th Year of Participation in Asia's largest Art festival and 2nd year of receiving appreciation for students' work. We were awarded 2nd position in the Children's Visual arts section hosted by Kala Ghoda 2020. Students started with their imagination going wild to match the theme of "The Dot". Students creatively used various mediums from pencil drawing, mixed media, comic strips to 3D art to communicate their idea of the DOT. Students explored and experienced the process of how ideas are communicated in the form of a story and how the story is presented using a structure / formation. This year's art installation shaped students' ideas into a huge 5ft x 5ft movie reel which was named as "Journey of a Dot" which defined every element in this Earth goes through a journey and here our students present a journey of DOT with their creativity and Skills in form of storytelling.

CULTURAL DAY CELEBRATION

On 14th January 2020, Makar Sankranti festival was celebrated in the school. The school collaborated with the parents from different cultures and asked them to focus on presenting the 4 F's i.e. Food, Fashion, Artefacts and Festival of their culture. The states presented were West Bengal, Tamilnadu, Maharashtra, Gujarat and Punjab. Different counters were set up for each state where parents with their assigned teachers displayed various items to show the traditions followed. Different delicacies of each culture were also kept on the counter, which the students tasted. The parents also read out related folk stories, also kept concrete objects of the festival to give a real feel to the students as of how the day is celebrated.

Various activities were also planned for the children like starch painting, writing on a kite that read "If I were a kite I would...", dancing around the Lohdi fire, wearing different props used during kite flying and posing at the sel-fie counter and also wishing each other in Marathi. A counter of International Kite Festival was also set up wherein the selected students explained how the kite-flying festival is celebrated in the U.S.A., Japan, Bali, Australia and Japan. They also showed videos of the celebration conducted in these countries. The students also explained the History of Aviation to make others aware how kite was the earliest example of man-made flight which gradually led to present-day aircraft. Lastly, the students and their parents penned down their reflection. Overall it was a fun-filled celebration and gave students an insight into different cultures.

MARTIAL ARTS AND FOOTBALL ACHIEVERS

Martial arts championship was organized by the "Chitah Jeet Kune-do global sports federation" on the 29th November 2019 on account of "Sijo Bruce Lee's" 79th Birth anniversary. Chitah Jeet Kune-do global sports federation works in collaboration with Ryan Global School. The event was held at The Celebration Sports Club, Lokhandwala, Andheri. The Chief Guest for the event was Master Mao (Cultural Head of Ministry, China).

The tournament was organized by Cheetah Yajnes Shetty who is the founder of the sports federation. There were different events like Katha competition and individual fights. Around 30 students from our school participated in the event. Students took part in various competitions. The best fight of the tournament was bagged from our school by Anaya Grace from Grade 6. Ryan Global School won the 2nd place in Cheetah Jeet Kune-do championship.

The Football monsoon cup was organized by The Sports Gurukul on 1st September 2019 at the "All India Balkanji Bari, Santacruz. The chief guest for the event was Henry Picardo (Committee member of Mumbai district football association). Students from our school participated in different age groups. Our students who were in the under 12 boys category won the fair play award. The Under 14 boys category were the third runners up. The Under 16 boys secured the second runners up position. Dev Kejriwal from our school got the emerging player award of the tournament. The Football Champions League (FCL) was organized by The Sports Gurukul from 22nd December 2019 to 18th January 2020. Students from our school participated in the tournament. The tournament was full of league matches. Our students were very competitive in the tournament in which our under 14 boys secured the 2nd runners up position and the under 10 boys won the fair play award of the tournament.

NATIONAL SPORTS DAY

"Your dreams are what define your individuality. They have the power to give you wings and make you fly high." –PV Sindhu. The school celebrated National Sports Day with Great Spirit of enthusiasm. The assembly began with the bible reading, Lord's Prayer and special prayer. Mst. Mehul from Grade 10 presented a speech on 'The qualities of a true sportsperson'. He went on to speak about Indian sports and its importance to our generation. He also asked whether students were aware of Indian sports like Kho-Kho, Kabaddi, Kalaripayattu, Gilli Danda etc.

The quiz on sports facts and sports riddles, conducted by Dipansha and Shasha of Grade 10 was the best part of the celebration. The quiz kept the students engaged in a unique and fun way! No doubt the students were jumping with excitement to give the answers! It certainly worked as an energetic warm-up session for the whole school.

PYP PASSION PROJECTS - 2019-2020

The PYP exhibition is the culmination of the PYP. It is an opportunity for students to apply all that they have learned through their journey as a PYP student. They have had the chance to work collaboratively/individually to investigate a global issue with local significance. They showed their understanding of the five essential elements: knowledge, skills, attitudes, concepts and action as well as displayed various attributes of the Learner Profile. Every great teacher wants his or her students to find joy in the learning process. How do we as educators provide students with an environment to discover who they are, help them unlock the passions they hold, and guide their journey of self-discovery while also teaching our mandated curriculum? The answer is simpler than you might imagine: provide time for students to explore their passions.

For the past ten years, students of Grade five at Ryan Global School have participated in the PYP Exhibition. It is a way to celebrate their learning with the local community. Over the years, it has proven to be a highlight of the year and has produced amazing results. With a change to the enhanced PYP we have had to revise our approach to the Personal Passion Project and so now is the perfect time to reflect on the past and identify the lessons learned. This year, we decided to take a challenge and try "Passion Projects" to help our students find joy by exploring topics that intrigued them. Students were helped to narrow down the scope of their project. Students were encouraged to focus more on the process instead of the final product. Teachers set aside time for students to work on a research or passion project of their choice. Once the planning was done, it was time to set our students loose on their Passion Projects!

Students began their work by coming up with a list of things that made them happy. To make the Passion Projects manageable, we guided them to narrow their focus to one question or a big idea they wanted to explore and we encouraged them to identify areas about which they wanted to learn more. Through IKGAI Model, they identified their passion with their parents. Students investigated a local issue with global significance. To provide support and guidance during this lengthy process, we encouraged students to use both low-tech and high-tech research options. Many students found the answers to their questions in library books. Others used alternate resources like Internet research etc.

PYP PASSION PROJECTS - 2019-2020

They used a range of resources to investigate the issue. They thought and collected the burning issue from the newspaper and internet. Few students showed futuristic plans and shared their ideas through design thinking model and did the backward planning towards their project. We came up with many ideas such as a gaming app, education app, cybercrime, sustainability in sports, a profession in arts, water crisis, marine life, pollution and road safety etc. Next, they wrote their essential agreements as a team. They used the PYP learner profiles to make their agreements more meaningful. Further, they created their own central ideas and lines of inquiry and identified the key concepts that helped them to drive their investigation and identify the key questions of their topic on which they want to inquire. During the exhibition, students got the opportunities to learn from a variety of sources including experts of different fields, guest speakers, field visits etc. They connected with the local community, took surveys, visited different places and gathered the data from different resources for their topic. They represented their findings through different visible thinking routines and graphic organizers. Using their summarizing skills, students were able to write clear descriptions of what they learned through different primary and secondary sources.

Giving time to actively reflect on the process has been important. During the PYP Exhibition, students have had several opportunities to complete peer and self-assessment of their progress. Students were able to step back and assess what they have achieved and what remained to be accomplished. They shared their ideas with peers which were most beneficial as they reflected on their learning and the "Action" component. The act of reflecting on the process has also benefitted many students when it is time to share their projects with the world as their audience is as interested in the process as they are in the product. This feed-forward helps students identify their success and the area in which they have to improve. Collaboration between students is an important part of many projects. Wherever possible foster the opportunities for collaboration while allowing each student to maintain control of their project. The power of collaboration will lift the quality of the projects as students share ideas and encourage each other to go beyond expectations.

They were excited about their own digital creations. They created their Individual Logo's and later they created the PYP Passion Project LOGO all with smiles, laughter, and joy! Grade five students had showcased their work with an authentic audience of classmates, teachers, parents, Different IB schools and administrators at a Passion Project Share Fair. They shared their learning, Independent inquiry with lots of joy and confidence. As guests walked from a combination of different ways of presenting of their choices, laptop to laptop, stations to stations, listening to the student presentations, they validated the time and effort students had put into their work. They were able to clearly see how each student had come to realize the joy of learning through the exploration of their passions.

PERSONAL PROJECTS

"Nothing great was achieved without enthusiasm," Emerson. This enthusiasm was the key element of the journey of personal project presented by students of Grade 4 of Ryan Global School, as a culmination to their units under the transdisciplinary theme of 'Sharing the planet' and 'How the world works'.

The students identified the burning issues that incited them to conduct an in-depth inquiry. They were facilitated by their homeroom teachers, specialist teachers and mentors. They connected with the community and researched to set their actionable goals to bring about a sustainable change. Their projects aligned with the sustainable developmental goals program of the United Nation. Personal project gave the students a platform to demonstrate agency and take ownership of their learning. They developed the attitude of international mindedness as they conducted their personal inquiries and presented it confidently to IB learning community.

GLIMPSES OF EY STUDENTS DAY OUT

Samson Daniel Award

Dr Snehal Pinto, Director, Ryan Group receiving the award from Dr Vinod K Paul, Member of NITI Aayog, National Institute of Transforming India.s.

Ryan Minithon

In the fast growing world of mobiles and computers, Ryan Minithon offers a right platform for students to engage in physical exercise, thus helping them grow up as well-rounded individuals who are mentally capable and physically fit.

- » One of the biggest Road Race Series in India.
- » Conducted across 12 Cities - Nagpur / Aurangabad / Mumbai / Jabalpur / Jaipur / Chandigarh / Faridabad / Navi Mumbai / Bangalore / Surat / Raipur / Nashik.
- » 174 Races Completed Over 8 lakh students participated till date.

VISIT TO BIG FM 92.7

Seven students of the Ryan Global School got an opportunity to visit the office of BIG FM 92.7 on 10th February 2020. The station was running a campaign on 'understanding how today's children learn differently from their parents'. Two of our students were selected to express their opinion on how they think learning should be encouraged in today's students. Mst. Mehul Kumar and Ms. Rayna Khanna were taken to a recording studio to record their opinions on learning. Mehul spoke about the benefits of experiential learning with an example of the impact of actually conducting beach clean ups on learning environmental management and Rayna spoke about the impact of audio visual methods like videos creating an interest in students about the topic to be learnt.

The students were then taken on a tour of the office and shown where and how Radio Jockeys conduct live shows. The students also interacted with RJ Rani from BIG FM 92.7. She explained the workings of a radio show to them and shared her experience of being an RJ. She also spoke to them about the essentials of being an RJ and her journey of becoming one. The students were extremely excited to ask her questions about Radio and how she manages when shows are live. Overall, the students of Ryan Global School had a very educational and fun visit to BIG 92.7 FM radio.

suno sunao, life banao!

FUN WITH ROBOTICS!

Ryan Global School has started training its students for the technological innovation. Arcomm Tech Solutions Pvt. Ltd, a leading Technical Child Skills Development MNC from Dubai has been training students of top schools across the globe is now tied up with Ryan Global School -Andheri. Arcomm Tech Solutions is lead by Founder & CEO Dr. Arun Raaza, a Young Scientist with 32 Indian Patents and 2 International Patents. His notable innovations are ATM Auto controller and Ablution Water Saver, which are highly acclaimed and deployed successfully in several countries.

The unique feature of this skill development program is the complete "Hands-on training" on the basics of Electronics, Robotics, Embedded Systems, Internet of Things, and Artificial Intelligence. Every Student is individually motivated & trained practically. This special training program inculcates Innovations & Entrepreneurship culture to the students' community. It also nurtures the innovative product development skills amongst the flourishing students to contribute to the successful technological advancements worldwide. This exciting opportunity is provided for the students of Grades 6 to 10. This program will provide a platform for the students to showcase their hidden talents. Not only will do they get trained but they will also get inspired to do something of their one in the field of technology and electronics.

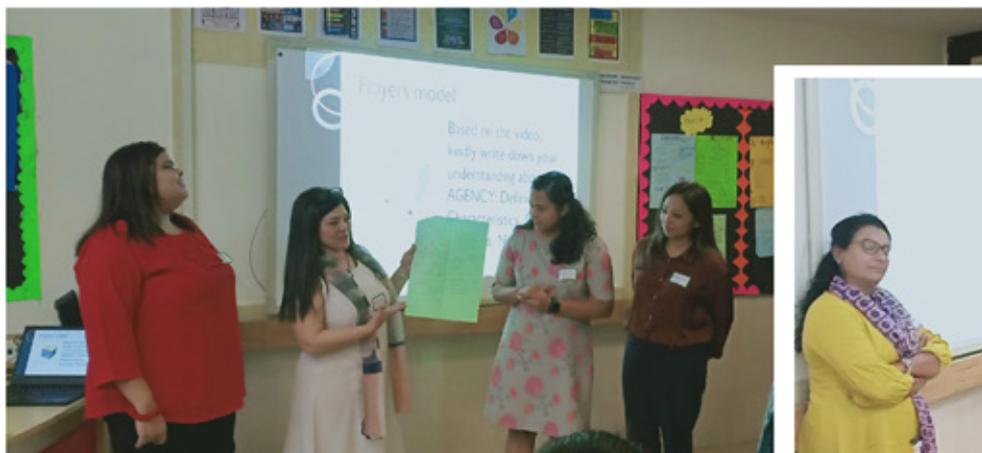

SAIBSA 2019

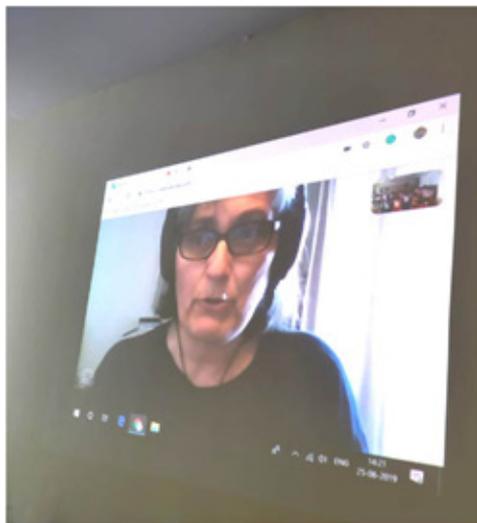

Under the guidance and vision of our respected Chairman, Dr. A.F. Pinto and our Managing Director, Madam Grace Pinto, Ryan Global School, Andheri (W), Mumbai hosted the SAIBSA Job Alike session on the 12th of October, 2019. SAIBSA is the acronym for the South Asia International Baccalaureate Schools Association. It was a memorable day with 300 IB PYP Educators from 33 schools covering Mumbai, Pune, Nasik, Gujarat, Bangalore, Dubai, Aurangabad, Boisar, etc, under one roof who got this amazing opportunity to share their best practices. It was an opportunity to interact with each other and to share each other's experiences through these sessions. There was something to learn from each other through the sessions conducted as well as through the interactions through the day.

The day was divided into 3 breakout sessions for Homeroom teachers and Specialists. The 1st being "From Principles to Practice: Pillar 1 - The Learner - The Learner Agency & Action". There was a parallel Coordinator Session led by Ms. Monita Sen - PYP Manager – Authorization. The 2nd session was on From Principles To Practice: Pillar 2 Learning & Teaching: - Constructing The POI & The Unit Of Inquiry. The 3rd session was on Integrated Assessment. These sessions were conducted by PYP teachers of the various participating schools. The sessions were conducted using various strategies of teaching and learning. In the afternoon slot, there were 2 plenary sessions where Ms Monita Sen spoke on Developing Assessment capacities and the four dimensions of Assessment and on Collaborative design to enhance Trans-disciplinary learning and Teaching.

SKYPE IN CLASSROOM

Skype in education is a free community that offers live transformative educational experiences for students including Virtual field trips, talks from Guest Speakers, classroom to classroom connections and live collaboration projects. There is a paramount need to protect the environment at the moment and this is what the World Environment Day, which is celebrated every year on June 5 highlights.

The students had a Skype Interactive Session with Mannela Correia located in Espinho, Portugal. The session was conducted on 27th June 2019. The topic of the lesson was 'The Skype Plastic Cleanup Brigade'. The host told the students about the pollution caused due to plastic and how is it affecting our environment. In addition to this, she also explained the concept of 'Reduce', 'Reuse', 'Recycle'. She urged the students to curb the usage of plastic and spread awareness of the same. Students also had a similar Skype Session with Rob Vlok.

A WORKSHOP ON SWIMMING

Ryan Global School, Lokhandwala organised a swimming theory session for the students which was conducted by Mr. Ahmed Ansari. Mr. Ansari is a certified swimming coach from Michael Phelps swimming and also from the Australian Swimming Body (Ausswim). Mr. Ahmed has an experience of 10 years in swimming coaching and has been working with Michael Phelps swimming for 4 years.

He conducted the sessions for the Primary and the Secondary students. The seminar room was filled with curious students as most of them knew swimming but were wondering what new they would be learning. Mr. Ahmed introduced them to the 4 B's (Balance, Breath Control, Body Position and Buoyancy) of swimming and how to use them while swimming. This was something the students were definitely not aware of! The session also took back the students to some basic biology lessons which was fun. He even focused on the precautions one must take while or before swimming. This session not only gave the students a lesson on swimming but also basic survival skills. The theory session ended with a round of applause and a thank you note.

TEDED CERTIFICATE AWARD CEREMONY

"There is one thing stronger than all the armies in the world, and that is an idea whose time has come."– Victor Hugo

TEDEd Club was started in Ryan Global School to celebrate students' ideas and imagination and to bring to life the concept of 'ideas worth spreading'. After the successful completion of Season 1 of the Club in 2019, the students were back for BOTTOMLINE SEASON 2. The Certificate Award Ceremony was the culmination of the TED-Ed Club journey for the Academic Year 2019-2020. The students were awarded for their hard work in finding an idea that they were passionate about, preparing their TED style talks and delivering it in front of a camera. The ceremony was held on 1st February with great enthusiasm and vigour. Mr. Devesh Chawla, Founder and CEO of Chatur Ideas, was the guest for the ceremony. Mr. Chawla has been a TedX speaker himself and his company enables startups to get funding from investors. As someone who understands and works with new ideas, he was a great inspiration for our students. The students received their certificates from Mr. Chawla with great pride. The parents of the TedEd students were in the audience encouraging and cheering their children. It was a great moment for each student,

their parents and Ryan Global School. The students gave the vote of thanks to express their gratitude. The ceremony ended with the Ryan Anthem followed by the National Anthem.

VARDHAMAN FANTASY - FIELD TRIP

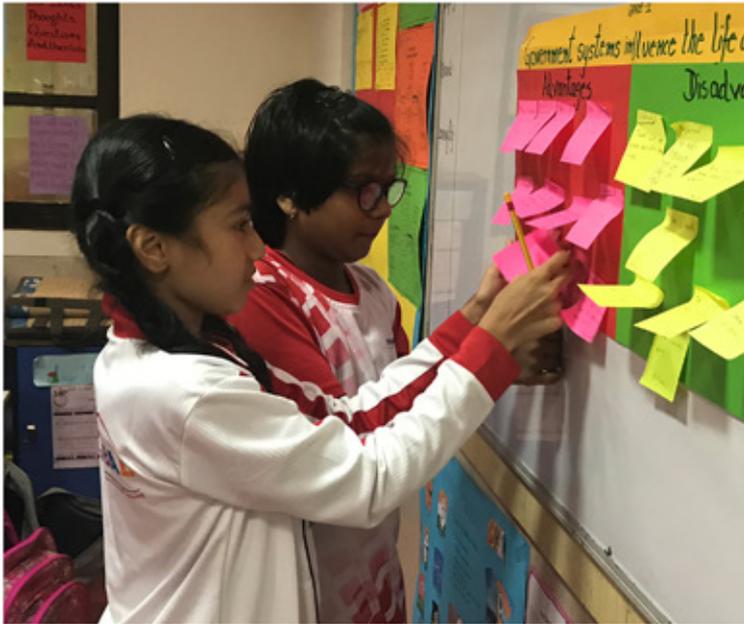

As a part of the Children's Day Celebration, students of Grade 1, 2 and 3 visited "Vardhaman Fantasy" for fun and frolic. It was a beautiful place located in Mira road, with miniatures of seven wonders around the world. It was an enjoyable and informative place. It was magical to see the Seven Wonders of the World. Students made a connection to their learning and were excited to see the monuments. Some students had visited the monuments when they went with their parents for vacation.

Other students were amazed to see the monuments. Students gained more information as each monument had the facts and a lot of details. Students saw monuments such as Leaning Tower of Pisa, The Eiffel Tower, The Taj Mahal, Chichen Itza, The Colosseum and Christ the Redeemer, The Great wall of China. Students also enjoyed the joyous train ride and playing with dashing cars. Our visit to Vardhaman Fantasy was amazing. Students had a great time exploring the place.

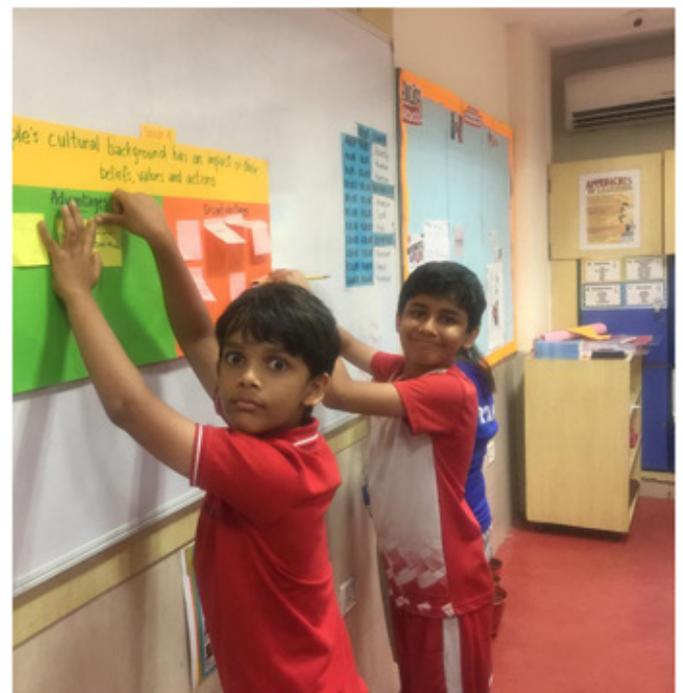

THE WORLD POPULATION DAY

The World Population Day is an annual event that is observed on 11th July every year across the world. It is celebrated to increase awareness among people towards population issues. It was first started in the year 1989 by the United Nations Development Programme and has been celebrated since then. Students at RGS are exposed to many global issues; this day was celebrated to focus student's attention on the importance of population issues. A brief discussion on population growth along with thought provoking pictures of population issues was organized and students reflected on "What are the advantages and disadvantages of population growth to a community?" Different strategies were used with different age groups to help students reflect effectively on population issues.

Grade 1 students reflected their understanding in the form of picture talk. Grade 2 students made awareness posters on population growth and its adverse effect on earth and Grade 3 Students analyzed the population issues and made posters on its effects on the world community. Grade 4 and 5 students reflected on the advantages and disadvantages of population connecting to their respective central idea wherein Grade 4 considered connecting to people's cultural background influencing their beliefs, values and action, Grade 5 considered connecting to government systems impacting the life of their citizens. The students expressed their deep concern on over population. They showcased the consequences of population explosion that included food and water shortage, war and social conflict and depletion of natural resources. The purpose of conducting this activity was to spread awareness about the dire consequences of population explosion.

YOUNG DIRECTOR'S COURSE

Young Director's Course was conducted for the students of our school by the Ryan TV, the media wing of the Ryan Group of Institutions. It is one Day Course covering the basics of creative short film making using a cell phone. The components are – Story conceptualization & Storyboarding, Lighting, Camera Operations, Framing, Basic Stop Animation & Ryan's IAFA Workshop. Students also get a certificate & media toolkit inclusive of Gorilla pod (flexible tripod) and clamp, 3 add on lenses, a stylus multi-purpose pen and a course hand book for future reference. It was a wonderful exposure for students to discover a young director in them.

CAMBRIDGE ENGLISH ENTRY LEVEL CERTIFICATE WINNERS

CHRISTMAS FUN!

"Christmas is most truly Christmas when we celebrate it by giving the light of love to those who need it most.- Ruth Carter Stapleton. Ryan Global School, Andheri celebrated Christmas with much pomp on the 19th of December, 2019. The celebrations began with the Lord's prayer followed by singing and dancing. Students of grade 5 came up on the stage to explain, 'How Christmas is celebrated around the globe?' After that, grades 1, 2 and 3 performed a Christmas Dance which was followed by a very beautiful Nativity Skit performed by the students of grade 4.

The students of grade 6, 7 and 8 sang Christmas Carols. After the joyous singing, students of grade 5 conducted quizzes for the school. The programme ended with a vote of thanks and a hearty Ryan clap!!!

YOGA DAY CELEBRATION

'Yoga embodies unity of mind and body; thought and action; restraint and fulfilment; harmony between man and nature; a holistic approach to health and well-being. It is not about exercise but to discover the sense of oneness with yourself, the world and the nature. By changing our lifestyle and creating consciousness, it can help us deal with climate change.' -Indian Prime Minister, Narendra Modi.

On June 21, Ryan Global School celebrated International Yoga Day. The day was chosen as it's the longest day of the calendar year. All the students participated enthusiastically in the program. Program started with a warm up, followed by various asanas. Yoga develops strength and balance as well as inner peace. Yoga Postures create a feeling of lightness, ease and relaxation. It was all together a rejuvenating experience for the participants.

Bronze Level - IAYP ADVENTURE

THE INTERNATIONAL AWARD FOR YOUNG PEOPLE

The Award helps young people to achieve their potential and develop into responsible citizens. The Award has a presence in more than 130 countries and is the Programme of choice for over 13 Lakh people in the world today. Following of our students have made us proud by achieving this award.

AUTHOR INTERACTION

We encourage love for reading in our young learners as per our Chairman's 12-point vision. One such similar experience was that on Tuesday, 24 July 2019, wherein, students of Grades 1 to 7 interacted with Ms. Sakshi Singh, the author of the book "Jalebi Jingles". Ms. Sakshi Singh is an international journalist and author. Her first book of poems for children Rat-a-tat poems is widely available in India and Europe. She has written extensively for the Times of India, Free Press Journal and other publications for several years until she realised her love for little ones.

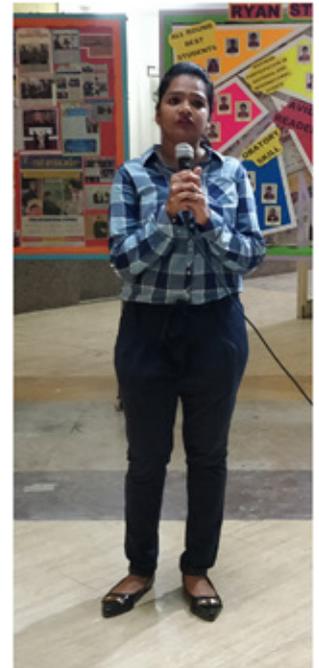

The interaction began with Ms. Sakshi asking the students if they had read the poems from her book, to which the students replied in the affirmative. She read the poems once again to the students and which they enjoyed it thoroughly. She also shared some of the facts on her childhood days and spoke on how she was inspired to write this book. Students asked some interesting questions,

which were very well answered and explained by her. The students were then made to reflect on one of the poems read out by her through an illustration and they did such a wonderful job. It was an exciting and enriching experience that was enjoyed by the students.

BACK TO SCHOOL

To mark the first day of the Academic Year 2019-2020 and to welcome the students for the new session a special assembly was organised on the 10th June 2019. The special assembly commenced with the Bible Reading followed by the Lord's Prayer and Special prayer. Director, Dr. Snehal Pinto welcomed the students and encouraged them to look at the new session with new hope and renewed zeal. Teachers performed on the prayer songs and later gave welcome speeches in English, Hindi, Marathi and French. Students were welcomed warmly back to school for the new academic year.

Games like spot-prizes and action whispers were played. The atrium was full of smiles and laughs. The students were motivated to participate actively in school life, imbibe values, responsibility, care, thoughtfulness and team spirit. Students were indeed happy and enthused to see the affection of the school management towards them.

CHILDREN'S DAY CELEBRATION

While we try to teach our children all about life, our children teach us what life is all about. - Angela Schwindt.

Children's Day which marks the birth anniversary of Pandit Jawahar Lal Nehru was celebrated with great enthusiasm to pay tribute to him and his love for children. The celebrations began with the prayer service followed by welcome speeches in various languages. To make the celebrations merrier Spot-Prizes were given. The prizes were the most exciting part of the programmes as the students were very alert and participative with lots of energy. Overall, everybody enjoyed the Spot-Prize distribution.

The most special part of the programme was the letter from Chairman Sir Dr. A. F. Pinto letter to the students which was read out by one of the teachers. The letter greeted students with warm wishes and love. The later part of the day, students celebrated with a cake cutting and inter-class football competition. It was truly a very memorable day.

FOUNDER'S DAY CELEBRATION

The School celebrated the Founder's Day with a special assembly to mark the birthday of founder-mentor and the Chairman of Ryan International Group of Institutions, Dr. A. F. Pinto. The day was celebrated with much zest and enthusiasm in the school. The special assembly began with the bible reading, Lord's prayer and a special prayer for Dr A. F. Pinto. Founder's Day is an important day of any community as it showcases the love and respects the institute carries for its founder. On this day not only the birthday is celebrated but also the immense success of Ryan Group.

The atmosphere of the celebration was joyous and cheerful. The Primary students danced to their heart and soul, spreading smiles across. Later, Grade 12 students came ahead as a puzzle piece. Each piece (each student) represented the 12-point vision on which the Ryan Institute's foundation is based on. Student Deepansha wrote a heart-touching Hindi poem for chairman sir and student Mehul spoke about Chairman Sir's beautiful journey to becoming such a successful educator. Each and everyone present felt grateful towards Chairman Sir. The celebration at Ryan Global School ended with the vote of thanks followed by the motto, school anthem, national anthem and a hearty Ryan clap!

FRENCH DAY CELEBRATION

On 15th of July, the students of Ryan Global School celebrated the French Independence day also known as the Bastille day. On this day, higher grades students along with the guidelines of the French professor had prepared a special assembly in French. After the informatively linguistic assembly, there was a quiz arranged wherein students involved, reflected and at the same time learned more about this marvellous country, France.

An exhibition on the French Monuments in the form of Charts, artefacts, booklets, was exhibited by the students of Grade 3. Grade 4 students had set up several stations in class comprising of games in French, songs/poems in French and learning of basic vocabulary in French. The students of Grade 5 exhibited the various kinds of French Cuisine, along with the school canteen menu in French as well as the nutritional values of French meals in comparison to meals of another country. The day was filled with the essence of the French Day Celebration. It was indeed a wonderful day where the students thoroughly enjoyed showcasing their hard work.

K-12 Group of the Year

Ryan International School has been recognised as one of the Leading Schools of India by Leading Schools Corp., USA.

India's only schools offering Media Studies with full-fledged TV studios. Our show telecasts on multiple TV channels in India

BBN (Beyond Breaking News)

A course for the benefit of those students interested in TV News Presentation & Production. Over 3000 students have completed this course so far.

BBN (Beyond Breaking News)

Ryan Group's media initiative to encourage creativity amongst children. Students create 1 min PSA Ads in categories like Women Empowerment, Child Nutrition, Water Conservation, Health & Beauty, Environment & Safety. Registrations open for this year's IAFA. More than 1500 children have registered so far.

Young Jourknows

Ryanites interviewing the celebrities.

Young Director

One Day Course covering the basics of creative short film making using a cell phone. The components are - Story conceptualization & Storyboarding, Lighting, Camera Operations, Framing, Basic Stop Animation & Ryan's IAFA Workshop. Students also get a certificate & media toolkit inclusive of Gorilla pod (flexible tripod) and clamp, 3 add on lenses, a stylus multipurpose pen and a course hand book for future reference. Over 8500 students have participated in Young Director so far.

INTERACTION WITH A FRENCH GUEST

On Thursday the 28th of November 2019, We at Ryan Global School, Andheri had the privilege of having in our midst Ms. Rachel Beaujean Deschamps. She is a French national who has studied History at Sorbonne University, Art History at Ecole Du Louvre, and Preventive Conservation at Sorbonne University and has specialised at 19th Century Art and history of the First World War.

She is presently working at the Musee de Cluny, Paris as a registrar and is responsible for taking care of all the art pieces (exhibition rooms/storerooms/ exhibiting artwork across the world). She is also responsible for preventive conservation (climate/materials affecting the artworks)

She interacted with the students of grade four and five and shared her wealth of knowledge. Our grade 4 and 5 students were very eager to ask her many questions related to France and the work she does at the museum. Some of the questions that they asked her were: How did the passion to work at a museum arise? How did she develop the love for the arts? What is the best piece of art she has seen so far? What is the research that goes behind in putting up an exhibition at the museum? and many more. Her answers brought a lot of insight to the students who were extremely delighted throughout the interaction and learnt a lot about the French culture and especially the hard work and dedication that play an important role in an exhibition. Her love for arts took her to many places around the world which is almost 40-45 countries and she is still eager to visit many more in the coming years.

It was indeed a beautiful experience for us at Ryan Global School to have Ms. Rachel in our midst and interact with our students and share what she loves doing the most, that is ARTS.

GREEN PICNIC

The students of Ryan Global School, Andheri were taken for a picnic to Eco Farms, Wada on the 20th December 2019. With their bags packed with games, snacks and a lot more, the children were all set to go for the picnic. Unlike other picnics, this one involved workshops on planting and home-farms. These workshops not only explained the students the importance of home-farming but also made them do some 'nature' work. One workshop taught the students to make beautiful terrariums. The students enthusiastically explored the alluring beauty and bounties of nature. The nature walk helped them to observe and study different types of plants all around them and get some pollution-free air into their lungs! By the end of the day, the students bought some chemical-free, fresh vegetables from the farm's stalls. Some students even bought colourful terrariums. The day was well spent interacting, singing and dancing with each other. The visit to the park was a memorable one and it motivated the students to take care of their environment and to maintain cleanliness around them. It was a wonderful opportunity for all the children to strengthen their bonds and everyone came back to the school after the Christmas Holidays rejuvenated.

INDEPENDENCE DAY CELEBRATION

India celebrated her 73rd Independence Day on this August 15, 2019. Ryan Global School, Andheri, celebrated Independence Day of India with great zeal. The Programme began with the Welcoming and Badge if of the Guests. The guests for the day were Colonel Anand Bhushan, Lieutenant Commander Abhimanyu Singh Shekhawat and Shri Kishor Gaike, Senior Police Inspector, Oshiwara Police Station. After the flag hoisting and sapling plantation, everybody said the prayers. The students of Garde 3 and 6 performed on prayer songs after which the student gave welcome speeches in English, Hindi and French. Not only speeches but the students of Grade 1 and 2 also performed a welcome song. The best part of the programme was the guest speeches.

Colonel Anand Bhushan was more than happy to grace the event and Lieutenant Commander Abhimanyu Singh Shekhawat told the students to be dutiful citizens and to enjoy life with responsibility. All the guests expressed their gratitude for being invited. Grade 4 danced on peppy songs from the Marathi, Punjabi and Gujarati community. But the last performance of the programme was the best; URI song by grade 5,6 and 7. The performance showed the sacrifices made by our Indian soldiers. It was full of energy and gave goose bumps to the audience. After the vote of thanks, the programme ended with Ryan Anthem followed by the National Song.

INTERACTION WITH A NUTRITIONIST

Ryan Global School celebrated the "Eat healthy stay healthy" week and on the 8th of July 2019 a guest session was organised on healthy lifestyle for the students of Grade 1-5. The students of grade 5 welcomed the guest, Ms Malaika Mirchandani, a nutritionist. She spoke on individual wellness which depends on the number of factors such as environmental, social, physical, intellectual, emotional, spiritual, etc. Further, she spoke about the importance of a balanced diet and she explained the food pyramid to the students. She focused on the Food Pyramid, which is a visual tool that is used as a guide in designing a healthy diet. It is developed as a guide to provide a framework for the types and amounts of food that can be eaten in combination to provide a healthy diet. She emphasised that the best way to meet the daily requirements is to eat a varied diet that is combined with cereals, fruits and vegetables, meat, fish, poultry, legumes and dairy products. In the end, she cleared all the doubts and queries of the students related to the topic. A vote of thanks was given by the students of grade 3.

REPUBLIC DAY CELEBRATION

Ryan Global School celebrated the Independence Day with patriotic favour and enthusiasm. The celebrations began with welcoming the guests followed by the flag hoisting ceremony where students pledged to uphold the honour and integrity of our nation. On this occasion, Miss. Sanajan Pai, a Grade 9 student explained the importance of Republic Day. Students of Grades 1, 2 and 3 gave a very endearing patriotic performance.

The best part of the entire celebration was the interaction with the Chief Guest, Deputy Commandant P. Mathew Khongsai of the Indian Navy. He briefed the students about his job profile and spoke about Republic Day and its importance. The students looked mesmerised when he spoke of his adventures in

the Navy. He also spoke about his daily chores on the ship. He faced a volley of questions by the curious and excited students. The celebration came to an end by singing the National Song and a hearty Ryan clap! May we continue celebrating this day forever!

HINDI DIWAS CELEBRATION

Hindi Diwas is celebrated every year on 14 of September to pay tribute to the official language of India. Hindi was adopted as the official language of Constituent assembly on September 14, 1949. The Constitution of India adopted Hindi in Devanagri Script as the official language of the union under Article (343) in 1950. The staff and students of Ryan Global School, Andheri, celebrated Hindi Diwas on 17th of September in the school as a mark of acknowledgement of HINDI as the National Language. It was celebrated with lots of pomp and enthusiasm. The students of grade 2,4,5,8 and 9 commenced the celebration with the bible reading and special prayer.

A little later, grade 8 student came up to speak on the importance of Hindi Diwas. Grade 9 student presented a PPT displaying legendary Hindi writers. The students of grade 4 also performed a small skit. It was unique as it grabbed the attention of the audience with its humour, song, dialogues and quick movements. Everybody applauded for the performances. Grade 6 student hosted a quiz with other students in Hindi. The quiz gathered a lot of participation. The day ended with the Ryan anthem, national anthem and a big Ryan Clap! Language and culture of any country plays an important role in making people-to connect with each other & helps in making a nation strong. Thus, the celebration concluded.

WORLD OCEAN DAY

"Oceans are not mere bodies of water they are the source of life on Earth, they are the source of oxygen for us... Time has come to protect and save them....." Ocean Day is an opportunity to raise global awareness of the challenges faced by the international community in connection with the ocean. Oceans are the lungs of our planet; the oceans are also a major source of food and medicines and a critical part of the biosphere. The concept of ocean day was first proposed in 1992 at the Earth Summit in Rio de Janeiro. On the 28th June 2019, the school celebrated World Ocean Day. Students of different Grades did different activities on the same theme as below:

EY – Grade 1: Students came beautifully dressed as colorful different sea creatures like octopus, jelly fish etc. Some of them imagined that they were under water like real sea creatures. The smiles on their faces made them feel like under water creatures and full of energy.

Grade 2 & 3: Students did impromptu speaking where students were asked to dig out a card from the sand pit. These cards had a theme and prompts on them. The topics were on various ocean aspects. It was fun listening to students' thoughts and sharing their ideas with their peers in class.

Grade 4 & 5: Students did a creative writing competition on topics such as - Write about your favorite sea creature & What if there would be no oceans etc. The winners of the competition were announced in the assembly; students were happy to know the winners of the competition and were filled with joy and enthusiasm.

COMMUNITY TRANSFORMERS

The Students of Ryan Global are nurtured not only to excel in academics and but they are also groomed to be young change makers and social contributors right from their young age. Students exhibited their commitment to serve the environment by participating in various beach clean up programs, No Plastic Awareness Initiative and saying no to crackers. The concept of sustainability and care for the environment has been instilled amongst them.

1. Beach Cleanup with Adv. Afroz Shah
2. No Plastic Awareness Initiative
3. Say No to Crackers for Green Future Initiative

Aditya Thackeray, Hon'ble Tourism and Environment for the Government of Maharashtra with Ryan Global Students

GLIMPSES OF THE ANNUAL SPORTS DAY

The Annual Sports day was held on 29th February 2020 at MHADA Grounds, Bandra Reclamation. Esteemed Guests graced the occasion to encourage the sporting spirit of the students. Shri. Shri. Ashish Shelar, Member of the Maharashtra Legislative Assembly, President – Mumbai Unit, Bharatiya Jananta Party, Mr. Arun Samuel, CMD, Wings Group of Companies, Mr. Edgar, Former National Hockey Player among others.

GLIMPSES OF THE ANNUAL SPORTS DAY

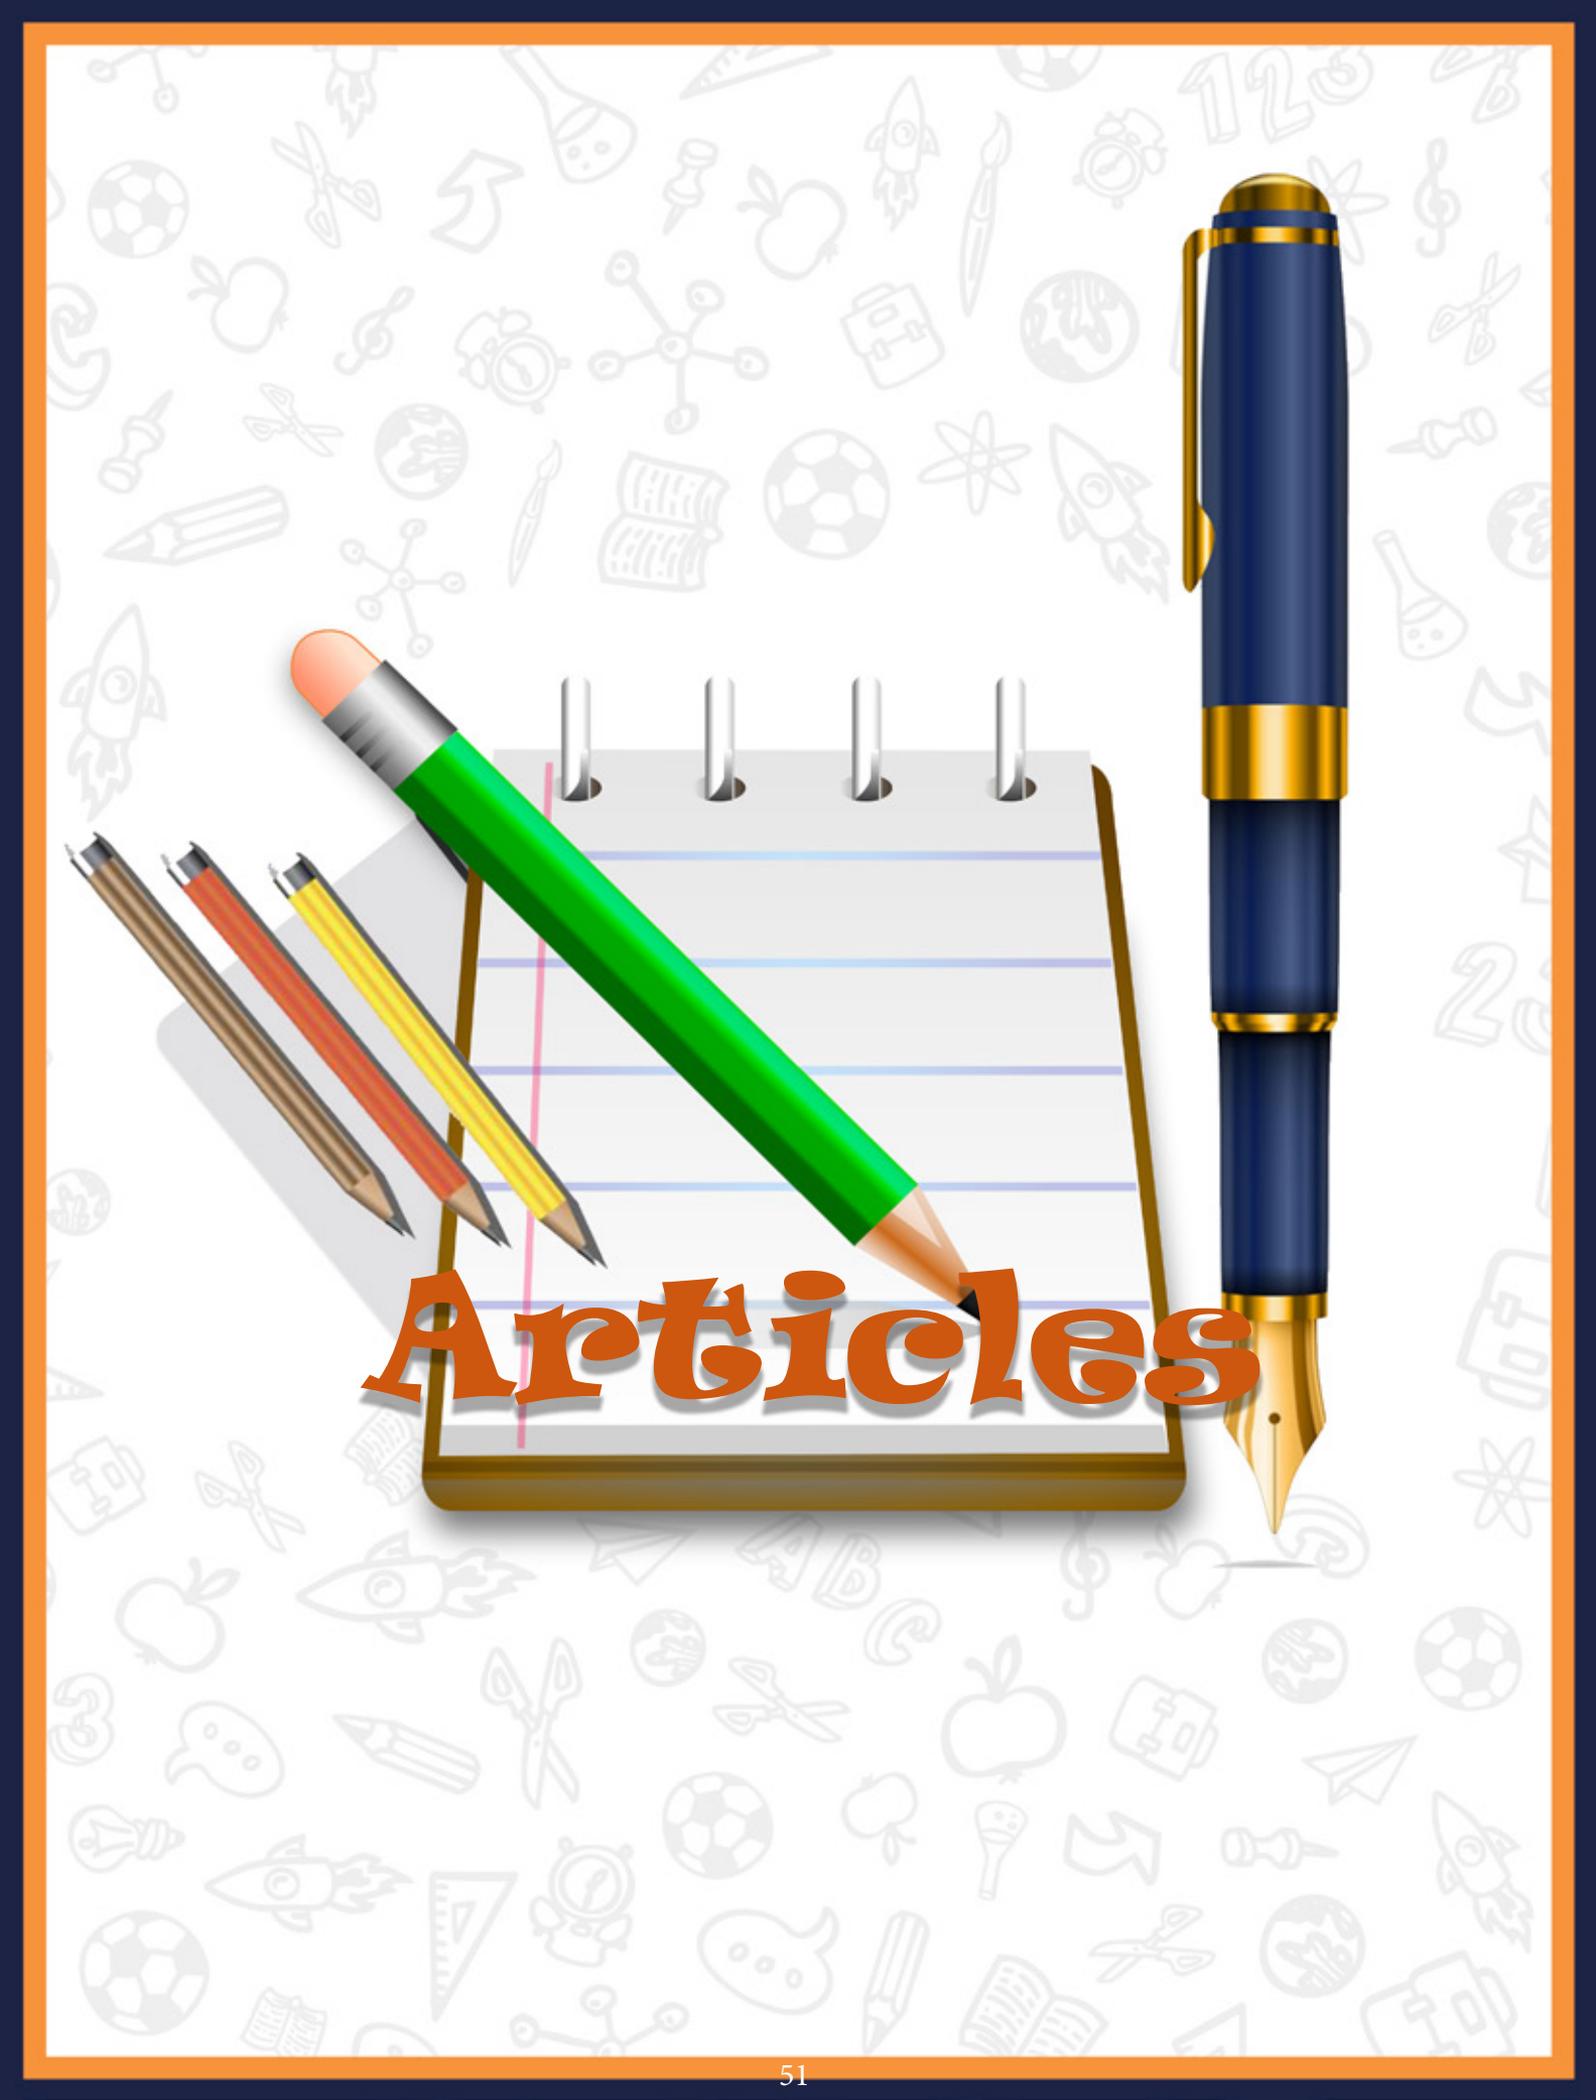

CYBER BULLYING AWARENESS

Unless and until our society recognizes cyber bullying for what it is, the suffering of thousands of silent victims will continue. - Anna Maria Chavez. Ryan Global School along with KPMG organised Cyber Awareness Session for the students. The team discussed the various possibilities of account hacking and also emphasised on the importance of observing things on their desktops. The session highlighted the need for children to keep in touch with their parents about the details of their accounts on Facebook, Whatsapp, Instagram etc.

At the beginning of the session, with the help of a PPT, the speaker asked the students of their methods of security on their social media accounts. He gave the students a few tips on being secure on the internet. He also emphasised on the need to be observant and aware of social media, its users and its functions. The session was a much-needed one. Especially for young students who tend to be the first victim of cyber bullying.

ANIMALS

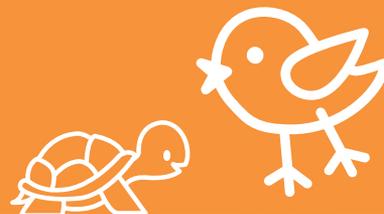

Friends, do you know how much I like animals? Animals are gentle but when people try to hunt them, they become a little wild. Some People hunt animals for selfish reasons. They kill elephants to make Jewellery out of their teeth and they kill other animals to make clothes out of their skin. Animals are also taken for entertainment purpose like the Circus and Zoo etc. Hunting animals for sports and business is not good. So, save animals and make their lives better.

Message- It is easy to destroy anything but it is hard to build it. So take care of animals instead of killing them.

Nitya Gupta

THE TORTOISE AND THE BIRD

A tortoise was resting under a tree, on which a bird had built its nest. The tortoise spoke to the bird mockingly, "What a shabby home you have! It is made of broken twigs, it has no roof, and looks crude. What's worse is that you had to build it yourself. I think my house, which is my shell, is much better than your pathetic nest." "Yes, it is made of broken sticks, looks shabby and is open to the elements of nature. It is crude, but I built it, and I like it."

"I guess it's just like any other nest, but not better than mine," said the tortoise. "You must be jealous of my shell, though." On the contrary,

Hunarr Kherajani
Grade 5

THE SNAKE AND THE ANTS

Once upon a time, there lived a poisonous snake in a hole. All the small creatures living around his hole were afraid of him. This had made him very proud and he thought to himself to be the most powerful creature.

One day the snake saw an ant-hill near the hole where he lived. Due to his pride, he said to himself, "Why should there be an ugly ant-hill near my hole?" Thinking so, he tried to break the nest of the ants. Within a minute, thousands of ants came out and attacked the snake biting his body all over! The snake could not bear the pain and died in no time.

Moral: One has to pay the price for being arrogant.

the bird replied, "My home has space for my family and friends; your shell cannot accommodate anyone other than you. Maybe you have a better house. But I have a better home," said the bird happily.

Moral - Better a crowded hut than a lonely mansion.

HEY ASTRONAUT

My name is URANUS; scientist WILLIAM HERSCHEL saw me first and what about you? I am a huge Cold Giant of ice made of Rocks 25 %, Ice 64%, Hydrogen and helium 11%. Will you ice skate on me too? I am 4.5 billion years old and what age are you? I stand on the 7th number in planets and what roll number are you? I am 14.5 times bigger than your earth and how big are you? I am blue in colour and what colour are you? I have 27 moons; do you love moons too? Gases and Rocks make rings around me (very dark and cold) and how about a ring for you? I am so huge I take 84 years to move around the sun; do you want to laze around like me too? I love to dance, so I twirl and my day ends in 17 hours and 14 minutes; will you take around with me too? You must be tired after a long journey of 9 and 1/2 years from Earth to me; would you like a glass of ice too? My atmosphere has these gases - Hydrogen 83%, Helium 15% and Methane 2%. But sadly NO oxygen for you! Now you shall go back, else you will freeze too. Goodbye and lots of icy cold love to you!

Fatima Zahraa Shaikh
Grade 4 A

WHAT IS LIFE WITHOUT THE OCEAN?

Oceans are the support system for life on earth. They flow over nearly three-quarters of our earth and hold 97% of the planet's water. They produce more than half of the oxygen in the atmosphere and absorb most of the carbon from it. Without healthy oceans, our life on earth would be severely challenged, unpleasant on earth, because life on earth can thrive without land, but cannot exist without ocean.

No matter how far from the shore that you live, the ocean still affects your life and the lives of your loved ones. The air that you breathe and the water that you drink, the food that you eat, the things that keep you warm and safe come from or are transported by the ocean. So let us all save the ocean and save our lives too.

THIS IS HOW I EXPRESS MYSELF

I love creating figurines with clay modeling and have been creating some beautiful art pieces. I create lots of play dough/clay modeling art throughout the year. Some of which are here below. I love talking about

them and expressing myself through these. I have also coloured a picture of a puppy in black and skin colour, with a blue background.

Some of my beautifully and brightly painted diyas, decorated with glitter for Diwali are here.

Adhyanth Kavinattamai

STOP BULLYING!

WHAT IS BULLYING?

Bullying is when a person keeps troubling a different person for a long time and the person who gets bullied faces a big difficulty to defend himself or herself. Bullying is also when a person troubles the other person purposely by telling mean words, and not only verbally but also physically sometimes like pushing, hitting, etc.

HOW TO STOP BULLYING?

You can stop bullying by telling an elderly person than the bully like a teacher and you can try to get people like other school students in your side to face the bully verbally. If he or she is not from your school and bullies you at your home than you can tell your parents about it and face the bully or you can also build a team with your home friends and try to face the bully.

MY SPORTS JOURNEY

I was two and a half years old when I accidentally kicked off our church sports day event just before the parish priest who was supposed to do so. I got away as a cute little toddler but the humorous situation gave me instant fame and everyone present there for the ceremony had a good laugh. It was just the beginning of what was to come. I used to watch football matches with my father and tennis with my grandfather. Messi and Federer were the first two great sportsmen who inspired me and developed my interest in sports. Messi was my hero and everything I did, no matter how messy it got, I wanted to be like my hero. My parents always tell me that I never cried or made a scene if I told that Messi did it - be it getting

GLOBAL WARMING

THIS IS WHAT GLOBAL WARMING MEANS TO ME

GREENHOUSE GASES
LOSS OF BIODIVERSITY
OVERHEATING
BURNING OF FORESTS
AIR POLLUTION
LANDSLIDES
WATER POLLUTION
ALLERGIES, ASTHMA AND DISEASE OUTBREAKS
RISING SEA LEVELS
MELTING GLACIERS
INCREASE IN GLOBAL TEMPERATURE
NATURAL CALAMITIES
GROUNDWATER DEPLETION

a shot from a doctor, a haircut or having my meals. Messi was my parents' saviour and helped them to bring me up with ease.

Before I turned three, my parents registered me with a football club and academy where I was professionally trained to play football. I went on to play my first tournament at four and a half years and I play professionally today with my Pneuma Football Club and for Ryan Global School. Also around 6yrs, I started training for tennis in my residential complex. Swimming is also another sport I practice once in a while. I learned swimming at Ryan Global School with Michael Phelps Swimming Institute and I do swim occasionally in my complex's swimming pool. In-line skating is a sport I picked up along the way and was inspired by my friend who is currently India National Level medalist in Skating. I do play Kho-Kho in school with my classmates sometimes and the latest sport I was introduced to was baseball in School. I did catch up on some Rugby World Cup highlights with my father. It's a heavy contact sport but very interesting to watch. I have a framed picture hung in my room that has a picture of me playing football along with Messi and Mbappe on my sides with a quote below that says "Discipline is the bridge between goals and achievements". This picture inspires me to practice and perform every day in sports.

THE SECRET SEVEN BY ENID BLYTON

Characters: Janet, Peter, Pam, Lolin, Jack and Barbara

So the story goes this way... It's their first-ever adventure in their secret seven groups. They are super sleuths who are already on the trail of a mystery. The gang is disguised and is following a lead to a spooky old house in the winter. It is all covered in snow. They are spying on the business inspector. At last, they complete their mission by talking to him and sorting out the doubts.

I love this book, as it's filled with adventure at every step and it challenges me to keep my eyes open to such adventures and builds up my critical thinking skills.

HEROES OF OLYMPUS: MARK OF ATHENA

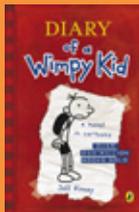

I have done a book review on the Heroes of Olympus: Mark of Athena. The book is about Annabeth who finds her mother. Athena split between her Roman and Greek form and tells her to destroy the Romans. Annabeth denies. Her mother tells her to follow the Mark of Athena and find the Athena Parthenos. It depends on Annabeth to find the Athena Parthenos and restore peace among the Greek and Romans or Gaia will wake up and destroy the planet. I like the part when Annabeth fools Arachne and then traps her. I would rate this book 5 stars and share it with my friends so that they would enjoy the book the same way I did.

CHEEKY HAS A TOOTHACHE

I recently read a book "Cheeky has a Toothache". What I learnt the most from this reading was to always share. Be it big or small, we should learn to share. In this story Cheeky had all the chocolates her Uncle and Aunt had gifted her. She did not want to share with her friends who had come to play at her house resulting in her having a terrible toothache the following day.

Had Cheeky to share her chocolates with her friends, she would not have to pay the dentist a visit and neither would she be scolded at by her Mum, nor suffer from such a terrible toothache.

HAPPY HARE-LEARNS HEALTHY EATING HABITS

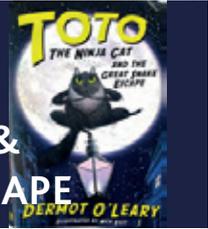

Hi everyone, I read the book Happy Hare-Learning Healthy Eating Habits. I liked reading this book as through the story of the Hare, I realised how important healthy eating habits are. I also realised that we should be fit and not fat as it is unhealthy to be fat. When Happy Hare could not fit in his clothes for a wedding in the family, he became sad. That is when he realised that it was not nice for him to eat junk every time, which eventually led to him becoming fat.

That is why it is important to take care of our body. We must eat healthy to remain fit.

TOTO THE NINJA CAT & THE GREAT SNAKE ESCAPE

Author: Dermot O'Leary
Illustrator: Nick East

Toto has Ninja skills and at night has an amazing adventure with her cheeky brother Silver. She wants to join them on their first great adventure. A deadly king cobra has escaped and Toto's going to have to use her powers to capture him....

It is my favourite book since there is a big adventure and I love adventure books as it gets me thinking and is very interesting.

Grade 1

THE WIND IN THE WILLOWS

Author: Kenneth Grahame

This book is a perfect book for children who like adventures and I am one of them. It is the story of a Mole who discovers a river bank and finds a rat on the board. Ratty takes Mole to the wild woods along the river bank. Just then a white and black striped head Badger in a thorny bush leaps out. A toad was on the river too. So this is how Mole discovers all the 3 friends.

The adventure starts when all the 4 friends

discover Mr. Toad has been a foolish animal that has taken over a brand new shiny motor car. The adventure gets worse because of the battle between the weasels and the 4 friends. They finally get a hold of Toad Mall which is the residence of Mr. Toad. And they all live happily ever after. I liked all the 4 characters because they were brave and helped Mr. Toad and Mr. Toad was also a very generous friend.

I love this book as it's a story of True Friendship!

Grade 5

SELF-MOTIVATION – A KEY TO SUCCESS

Self-motivation is the window of a room with closed doors that reminds you that there is always a way to achieve things you desire.

Wanting to do something and motivating yourself to actually do it are two different things. The difference between those who never reach their goals, even after years and years, and those who achieve one goal after another is nothing but their self-motivation, it is a positive inner force that pushes them to move further and help them achieve their goals. When you think you want to give up on something, or you just don't know how and where to start from, your self-motivation is the key that unlocks the door for you to explore and achieve. With self-motivation, learn and grow – regardless of the hurdles coming your way. That's why it's such a fundamental tool for reaching your goals, achieving your dreams, and succeeding, in this journey called life.

Positive thinking is an important element to build strong self-confidence. It's important to look at things positively, especially when things aren't going as planned and you really want to give up. If you keep thinking negatively about things or you feel you won't succeed, it may influence things around you in such a way that all your negative predictions will come true which will upset you further. This happens in cases where you need to work hard to achieve your goals, or if you need to persuade others to support you in order to succeed. Your thoughts have a major influence on your success or failure, so make sure those thoughts are "on your side."

Focusing on your goals is also an important part to keep yourself motivated. When you have many goals, always schedule your time and resources effectively. You can achieve the "focus" part of self-motivation by prioritizing and establishing a schedule that will help you succeed in accomplishing your work more effectively. It doesn't make sense to work until you're exhausted or give up one goal to achieve another or just simply doing half of every work and completing none.

IF I WERE THE PRINCIPAL OF MY SCHOOL FOR A DAY

If I were the Principal of my school for a day, I would try my best to make it a memorable day for the students. First and foremost, I would inform the parents that their children could come to school in colored clothing just for a change. It would be a day full of learning through creative activities for the students. My focus would be on wholesome learning. Once the students arrive, I would tell them that today is a very special day, a day when they would have time for academics and other activities that interest them. I would ensure that the playground is used, and also children make the most of the dance, music and art rooms. During the short break, I would arrange for snacks such as doughnuts or a few pieces of cake and fruits for the students as well as the teachers.

After the short break, I would organize a field trip to the Nehru Science Center. This would ensure that the students explore more about science and enjoy studying beyond the four boundaries of the classroom. I would make sure that students are provided with nutritious food at mid-day. The day would end with all appreciation for the students which would only encourage them to come rejuvenated the next day. These are some of the things I would do if I were the principal of school.

INAZUMA ELEVEN

There was a man named David Evans who was the coach of the legendary Inazuma Eleven. They were about to play the Royal Academy but the Inazuma never got to play as they were about to reach the game they met with an accident. The players tried to reach the game but they could not play. But then his grandson Mark Evans was playing football and created a team called Raimon Jr who played an exhibition match with Royal Academy, the team that was not defeated for 40 years. They played but the score was 19-0. Then Axel blaze scored a goal using his special move called fire tornado that went in and the score was 19-1. Royal Academy captain Jude Sharp was impressed with Mark Evans who was the captain of Raimon Jr. Royal academy forfeited the match and Raimon Jr won. Then their next game was against Occult Jr. who was a cursed team that never lost so what happened was that they have a special technique called ghost lock where no player from the opposite team could move. The score was 12-0 but Axel Blaze and Kevin scored with a move called dragon tornado that equalizes the score than the ghost lock was broken. Rumble Break that broke the ghost lock and they scored again. Raimon Jr. is a team that never gives up.

IN TO THE SPACE

Even as the 21st century has begun, the human beings have continued their advancement and development in technology and discovering many new things to contribute to the world's progress. But the one area we are still struggling to conquer is space.

Space travel is possible but is very costly & uses up a lot of resources. For example, NASA alone spends over 15 billion USD every year. Scientists and engineers have been trying to look for a solution and now there is 'Sky Hooks'. Sky hooks are launched into the orbit around the Earth, while spinning around it.

Rayhan
Grade 7

WHY WE MIGHT NOT BE ALONE IN THIS WORLD

Recently there have been arguments about intelligent alien life away from our planet. Since the 1960s the space race has started between the US & Russia. Many Rovers and satellites have gone to Mars, like Exomars (Europe) and Magalyaan (India). It is very clear that all countries are very keen to find extraterrestrial life.

I think extraterrestrial life exists, but where we still don't know yet. Scientists have discovered many Earth-like planets not only in our solar system but also beyond. The Kepler solar system has many exoplanets suitable for life. Europa is a planet filled with thick ice and water and might have marine life beneath the layer. Now only time can tell if there is life there or not.

Rishad Shroff

A RACE HORSE CALLED SEA BISCUIT

A horse with bent legs and a twisted mind was a sensation in the American horse racing circuit in the 1930s. He comes from an unlikely background to electrify the nation. His blistering speed and phenomenal stamina defeated the best horses in the country and in fact shattered more than a dozen records.

Thousands of fans turned out just to watch him exercise and millions of radio listeners turned on their electronic devices every time there was a race. His owner Charles Haward was very calm and a charming person but while racing he was very violent as his horse. He was a very special horse in the town. But, unfortunately, he died soon.

IMPORTANCE OF EDUCATION

We should know the importance of education and we need to go to school for gaining knowledge. We should also be aware of things happening around the world. Each one of us must have a basic knowledge of different subjects like English, Mathematics and Science etc. It is very important that we don't judge anyone based on their gender or education.

Everybody has the right to go to school and be educated. Education is for the holistic development of a child and it prepares students for lifelong learning. Education is very important for students' development. Through education, we can help society not only through our service but also being a good and responsible human being. Through education we can become happy and successful individuals.

MY JOURNEY ON SOLVING THE RUBIK'S CUBE

I wanted to tell you about my journey of solving the Rubik's cube. I did the same topic for my Ted-ed but I would like to talk about it again. Solving the Rubik's cube was impossible to me; I had always wondered how I could get all the colors on all sides. I always wanted to solve it, but as I always said, I didn't have enough IQ. But what I needed wasn't IQ, it was belief. I had to believe that I could do it.

My friend Rayyan was a fan of solving cubes, his father had taught him. One day, I went up to him and asked him, "Can you teach me, can you please teach me how to solve the cube." He said, 'Yes,' he would and then my journey had started. The very first thing I learned was algorithms, it's a code language used to solve the cube. I then learned the 1st layer then the second layer and finally the 3rd layer. The 3rd layer was a little tough, but I got it easily afterward. Then I learned a new method called FZL; it made me solve the cube in exactly 8 seconds. I was so happy. I never thought I could actually complete my impossible dream. I really thank Rayyan and everyone who supported me throughout this journey.

SPORT

The world is filled with many activities. There are activities that also include sports. Sport is a thing or it is a platform where there is competition. There are more than 100 different sports in the world. There are

many sports that are even played professionally.

Many people say that there is no career in sport and especially in developing countries like India. That is why there are less careers of a sportsperson in India. However, the Indian people are starting to try to put their children into sports with education. This will definitely help those sports loving children to realize their dreams and make our country at par with other nations in sports.

Q1. Sally is 54 years old and her mother is 80, how many years ago was Sally's mother three times her age ?

Answer : 41 years ago, when Sally was 13 and her mother was 39.

Q2. There is a three digit number. The second digit is four times as big as the third digit, while

the first digit is three less than the second digit. What is the number ?

Answer : 141

Q3. Two girls born to the same mother, at the same time, on the same day, in the same month and in the same year and yet somehow they're not twins , Why not ?

Answer : Because there was a third girl, which makes them triplets.

Q4. A ship anchored in a port has a ladder which hangs over the side. The length of the ladder is 200 cm, the distance between each rung is 20cm and the bottom rung touches the water. The tide rises at a rate of 10cm an hour, When will the water reach the fifth rung?

Answer : The tide raises both the water and the boat so the water will never reach the fifth rung.

MY MOMENT MY LIFE

I imagine if I was given one moment
Just a single slice of my past.
I could hold it close forever
And that moment would always last.

I'd put the moment in a safe
Within my heart's abode.
I could open it when I wanted
And only I would know the code.

I could choose a time of laughing
A time of happiness and fun.
I could choose a time that tried me
Through everything, I've done.

I sat and thought about what moment
Would always make me smile.
The one would always push me
To walk that extra mile.

If I'm feeling sad and low
If I'm struggling with what to do,
I can go and open my little safe
And watch my moment through.

There are moments I can think of
That would lift my spirits every time.
The moments which picked me up

MERCURY PLANET

I'm the closest planet.
To our Hot, Hot, Sun
Won't I feel so
Hot, Hot, Hot.

I'm the closest planet.
To our Hot, Hot, Sun
I'm freezing cold at night

I'm the smallest planet
Going around the Sun
Won't I feel so
Small, Small, Small.

I'm the smallest planet
Going around the Sun.
I am so small here.
But I'm the fastest planet
Going around the Sun.
Won't I feel so Proud, Proud, Proud
I am the number one racer.

Damini Gupta
Grade 5

When the road was hard to climb.

For me to only pick one moment
To cherish, save and keep
Is proving really difficult
As I've gathered up a heap!

I've dug deep inside my heart,
Found the safe and looked inside
There was room for lots of moments;
In fact, hundreds if I tried.

I'm building my own little library
Embedded in my heart
And cherish every moment, I spent to last.

GOD'S AMAZING CREATION

Butterflies fluttering,
 Frogs muttering,
 Bugs flying,
 Daffodils shying,
 Ducks fighting,
 Fireflies lighting,
 Lions roaring,
 Whales snoring,
 Wonderful, beautiful world

WHEN I GROW - UP

Someday soon when I grow up,
I'll learn to write a book or be a cook.
I'll teach children to read or plant a tree.
I might want to be a doctor, who heals
Or sail the ocean blue
Or a mountaineer this year,
I'll work and learn until it's my turn
So many jobs to choose, I wonder
What I'll be till I find the right job for me!

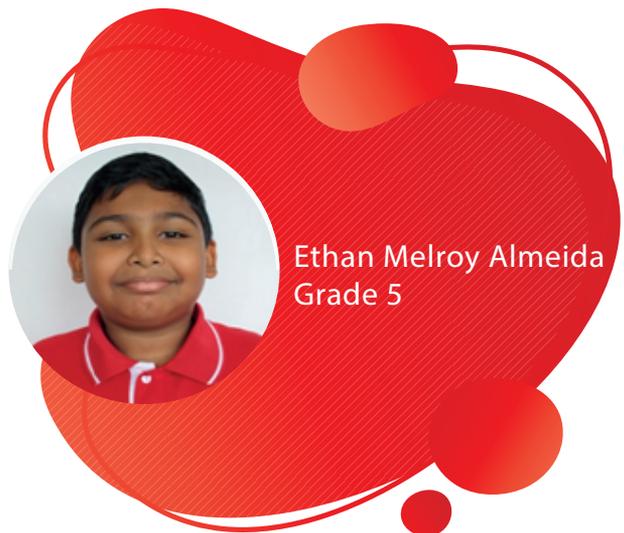

CHRISTMAS

Christmas is about love and joy
Children play with snow and toy.
It's a time of fulfilling wishes
And giving them hugs and kisses.

Christmas is so fun,
I feel like a sugary plum.
Christmas is about singing Christmas carols
And a time for spreading cheer.

Christmas is so fun - yay
I can dance all-day
I like to decorate the Christmas tree
with twinkling light and holly.

The aroma of food wafts through the air
I feel like a chief in there.

विश्व गुरु भारत

कभी हो जाते हैं नामुमकिन सपने भी साकार,
ऐसा ही था भारत का मंगल पहुंचने का विचार।
खड़े थे बड़े बड़े देश लेकर अपना अपना विमान,
पीट पीट कर ढिंढोरा उठा लिया था आसमान।

कोई न पहुंचा एक बार में लाल ग्रह के पास,
लोहे के चने चबाने जैसा कठिन था यह प्रयास।
भारत पहुंच गया पहली बार में लेकर मंगलयान,
सभी ने फिर से माना कि बड़ा है विश्व गुरु का ज्ञान।

500 करोड़ से भी कम थे इस पर खर्च किये,
130 करोड़ भारतीयों ने जलाये थे घी के दीये।
मेरा भारत महान फिर से सबने माना है,
चन्द्रमा तो पहुंच गए अब और आगे जाना है।

सुन्दर सपना

हम सब बच्चों के दिल में,
होता है सुन्दर एक सपना।।
निदियों में हम खो जाते हैं,
देखने अपना सपना,
प्यारा-सा सुंदर सपना अपना,
प्यारे बच्चे हँसते -खेलते,
खेल खेलते सबको है यहाँ फूलना।

बचपन के ये दिन हमारे,
सबको प्यार से पुकारे,
खेल-खेल हम जैसे रसगुल्ले
आंगन में करने हम हल्ले-गुल्ले,
नन्हे से बच्चे हम प्यारे-प्यारे।।

यहाँ पर हमें पढाई है करनी,
देश की बननी हैं निशानी,
कभी ना कोई कहीं खोजना,
सुंदर-सा यह सपना अपना,
प्यारा -सा सपना अपना।

RAINS

I love it when it rains,
And it rains Harry Kanes,
It makes puddles and ponds,
And I'm always so fond.

When you get wet,
The rain feels like a spray jet.

Rain makes farmer happy,
And the crops get a good nappy, I
love it when it all gets wet, So,
we don't have to take
the dogs to the vet.

When it rains till noon
They call it monsoon.
Then I eat hot chips
With a nice salsa dip.

MATH

Math, math it's OK,
You can do it every day,
Times tables, adds and pluses too,
Hey everybody, it's a challenge for you.

Be it a decimal or a fraction,
Should I divide or use subtraction?
Circumference of circle,
Pi times diameter, see what you get,
Can anyone tell me what is this shape?
Do we use a ruler or maybe a tape?

One hundred centimeters make one meter,
How many millimeters to a litre?
Push the buttons on a calculator,
Teacher shouts "Use your brains"
You'll need them later.
Math in the day, math in the night,
math in the evening, that's alright.
We work hard at our math

MATH-A-THON THE 24 GAME TOURNAMENT

Ryan International Group of Institutions hosted the Grand Championship of MATH-A-THON-The 24 Game Tournament of First in Math Programme of Suntext International on 18th January 2020 at Ryan Global School, Andheri. From over 1500 students registered for the tournament from Ryan Group of Schools across Mumbai and Navi Mumbai, 150 finalists battled live for the Ryan MATH-A-THON - The 24 Game Tournament Championship Trophy. 150 enthusiastic Ryanites played live the 24® Game and the 24 Challenge® of First in Math (FIM), created by U.S.-based Suntext International by Inventor Mr. Robert Sun. The Grand Champion Trophy was bagged by Damani Gupta, a Grade 5th student of Ryan Global School, Andheri and the Champions Trophy was notched by Siya Dhar (Grade 4) & Yuvraj Bhatia (Grade 7) students from Ryan International School, ICSE Malad. The winners were felicitated by the eminent guests present on the occasion. First in Math program is an incredibly innovative programme that makes Math appealing and accessible to all types of learners. The initiative is part of our shared vision for excellence in academics and energizing Ryanites to learn, live and love Math.

The World Scholar's Cup

The Regional Round of the World Scholar's Cup hosted by the Ryan International Group of Institutions in Mumbai on July 30-31, 2019 saw over a thousand students participating in academic and social challenges, the largest Regional Round this year. The competition allows the students to display their proficiency in the subjects of History, Science, Art, Literature, Social Studies, and Current Affairs. This premier academic competition explores the development of future leaders in a global community, allowing the students to showcase their skills at an international platform. This year's theme was A World on the Margins.

Qualified for Global Round: Anay, Anaya, Reyansh, Varad, Iyasha, and Jamie

Brainfeed - School Excellence Award - 2019

Ms. Sonal Pinto, Director, Ryan International Group of Institutions receiving the School Excellence Awards at the 7th National Conference on Teaching, Learning and Leadership on 7th December 2019, Hyderabad.

NASA

Ryan International Group of Institutions has always encouraged students to take part in NASA Educational Programme in order to hone their scientific temper and groom themselves to be future astronauts and space scientists. It was a proud moment for the group as Ms. Satakshi Dwivedi, an Alumna of Ryan International School, Raebareli got an opportunity to meet Hon'ble President, Shri. Ram Nath Kovind at Rashtrapathi Bhavan as she represents India NASA Human Exploration Rover

Challenge. It was previously known as THE MOONBUGGY RACE. This year it was the 25th Anniversary of this competition and we participated for the very first time. She was the captain of the team and was solely responsible for the formation of the team. Nearly 100 teams took part in the competition, hailing from a record number of countries, including the US, Bangladesh, Bolivia, Brazil, the Dominican Republic, Egypt, Ethiopia, Germany, Mexico, Morocco and Peru. Ms. Satakshi was the lead designer and her group received the AIAA Neil Armstrong Best Design Award. It's a proud moment for the entire Ryan Group of Institutions.

RYAN INTERNATIONAL GROUP OF INSTITUTIONS

Ryan PennHub Partnership

Ryan International Group of Institutions and The Commonwealth of Pennsylvania signed a historic collaborative agreement, aimed at providing the students of the Ryan Group a global platform to explore opportunities for their higher education.

Classrooms without borders

Ryan International Group has ensured to provide their students with multiple options for higher education and also learning foreign languages and cultures while retaining core values. International cultural exchange programmes involving both students and teachers at the national and international levels are a part of the learning process at the Ryan Group. Ryanites have on a regular basis participated in the exchange programmes at Thames Valley Summer School - London, Adelaide - Australia, Traumer, Tanzer und Astisten, Hannover - Germany, Brixen - Italy and Switzerland.

Teen Camp - Nurturing Responsible Global Leaders

Ryan's Teen Camp is an exciting and cherished episode in students' lives at Ryan that helps them deepen their maturity, broaden their horizons and enhance their leadership qualities. Ryan Teen Camp 2019 based on the theme "Courage to Conquer" provided a perfect opportunity for over 15,000 senior students from all over India to showcase their talents in music, dance, drama, leadership; learn life skills and develop their personality in order to boost their confidence.

Students made the best of every opportunity by participating in 30 different competitions, ranging from Debate, Photography, Dramatics, Spell-bee, Shark Tank to name a few. Also at Teen Camp Ryan celebrity students playing lead roles in several popular TV serials, movies, and reality shows were felicitated and applauded for their acting prowess at such young ages. Ashnoor Kaur, Anushka Sen, Akshat Singh, Riva Arora, Navik & Shivansh Kotia are few to mention.

“Train children in the way
they should go,
and when they are old
they will not turn from it”
(Proverb 22 : 6)
